It’s convenient for others to inconvenience you.

Keep that in mind when people want/ need favors.

Two words that will help you “nice” folks out

When people ask you for a favor start responding with “It depends”

It will take a lot of pressure off you

Can you do me a favor?

“It depends”

A key to being peaceful is to stop doing shit you don’t want to do / it’s inconvenient

Most people go wrong trying to be nice

That shit never works

People will take advantage.

They will push you to your limits

Take you to the deep end & keep going

Being nice will get you ran over

Be fair. Be kind. Be reasonable.

Not nice
