[@StephenMcDonell](#) Including the unknown pneumonia cases dating back to September 2019?

Note the potential cluster of seven patients at Wuhan Puren Riverside Hospital with symptom onset 1-2 Oct 2019.

Reported with some patient ID details:

You say that "there were no clear clusters of outbreaks of that type from those data earlier than December"

<https://t.co/seu9QaCewp>

Did you investigate the apparent cluster of seven patients at the Wuhan Puren Riverside Hospital with symptom onset over 1-2 Oct 2019?
