Dear Nigerian men,

If you're going to ask a woman out on a date.

"Mind chilling at, let's hang, we could chill at, etc."

Are not how to do it. It communicates the consistent noncommittal BS that is tiring.

That's probably why she's losing interest after you indicate meeting.

She's not one of your guys. It shows low effort when you do that.

She's a woman that wants to be asked out like you made an effort.

"Would you like to go out with me?
Can I take you to so so and so?

Does 8pm work for you?
Can we do lunch at so so by 3pm?
What don't you eat?"

Act like you're making an effort to actually date her.

Call to find out if you're still on, don't just be quiet till it's time for the date.
Call to cancel plans or communicate a change in time, go there early, don't dress like you just came out of your bathroom to fry egg.

Smell nice, use deodorant, hold the door for her, ask if she's comfortable where she's sat, if she complains about something being wrong with her food, ask if the waiter can do anything about it.

Don't text someone you're going out with at the time of the date with 'sup'

‘Sup’ what sir?

Why is she the one texting you to find out if you’re still on for the date?
Did she beg you?

Why are you asking someone out to dinner and going there with track suit and bathroom slippers?
Is it crack, love?

PLEASE NAU!

You’re confused on where to take her?

Ask that woman what she likes to do.

What’s your idea of a first date?
Would you rather do a movie & dinner, just dinner and great conversations or are you more of an activity type of woman?

Activity: Paintball, go kart, hike, paint & sip

Would you prefer a picnic as a first date?
What’s your thing?

What don’t you eat so I know how to pick a good place for us to go.

IT DOES NOT TAKE ANYTHING TO BE CULTURED.

It is so darn exhausting how much hook up culture has made you people lazy when it comes to dating.

What if her thing is taking a walk & talking on a first date?

You want to meet someone you just started talking to and it’s “come over to the house, I know this really good bar, we should hang”

Please get out, sir.■

Have you ever heard some of these married men ask women out?

You’ll really wonder what’s happening.

Na just English them sabi put together. Nothing more.

Be humble enough to actually admit that you should do better. Some of you when it’s brought up, instead of looking for how to make adjustments you’ll fight.

There are those of you that are gearing up to come & fight me now. Be safe outChea❤■

My point is please don’t “let’s hang, come over to the house, we should chill” people’s daughters that aren’t into hook up

culture. Especially on a first date.

It’s noncommittal and irritating.

Oh and it’s very very low effort.

If you genuinely like a woman and you’re not looking to hook up with her please do better.

Learn how to date her and do it properly. Nobody wants to hang or come to your house.

Plus don’t smell like onions and wear tracksuit.
