When a terrorist, Yasir Arafat, declared the nation of Palestine against Israel, who was the first country to recognize Palestine?

Saudi Arabia? - No!

Pakistan ? - No!

Afghanistan - No, no!

Iraq? - No!

Turkey? - No!

Think, then which country would have recognized Palestine first??

Secular India! Yes!

*Indira Gandhi first recognized Palestine for Muslim appeasement, and also "Nehru Peace Prize" to a terrorist like Yasir Arafat, and

Rajiv Gandhi gave him "Indira Gandhi International Peace Prize"!*

More astounding

Rajiv Gandhi had given him a Boeing as gift to roam around the world!

Now know further

*The same Khurafat, sorry Arafat, described Kashmir as "an integral part of Pakistan" in the OIC

(Organization of Islamic Countries), and the terrorist said that "whenever Pakistan wants, my fighters will fight for the freedom of Kashmir!"*

*And yes, not only that, this person who was declared as terrorist in 103 countries of the world, and who had hijacked 6 planes,

and who had killed two thousand innocent people, this Yasir Arafat was the first to get an Indian international award! Yes!*

Indira Gandhi gave him "Nehru Shanti Puraskar", which consists of one crore rupees in cash, and a shield made of two hundred grams of gold!

Think, in 1988, ie, 37 years before today, what will be the value of one rupee rupees today! (Above one and a half billion)

Then Rajiv Gandhi gave him "Indira Gandhi International Peace Award"!

*Then Yasir Arafat openly joined with Pakistan on the issue of Kashmir, and

it went on to say in entire Islamic countries that Muslims in both Palestine and Kashmir are being killed by non-Muslims, so the entire Muslim world Must be united on both these matters!*

Now, this Congress party is teaching Modi ji, "How foreign policy is done ..!"

Now you are free to consider who are the traitors and who are patriots!

Truth hidden till now, is unfolding due to the Social media.

Blaming BJP and Modi won't prevent more skeletons from stumbling out.
