Can't you find several gaps in the FIR?

If a lady is molested in the train itself, why did she keep quiet?

Why didn't she try to escape?

Why did she stay in the same tent?

When the father was informed that she was molested, why no FIR?

Where is the lady (supposedly an actress) who was trying to help her?

A million questions. This surely is far from truth. And I'm sure the truth will never come out with Kejri and Momta hand in glove with each other.
