2 ■ Free Certifications

Curated list of free courses & certifications

■ <https://t.co/4XtlAVlovs>

The screenshot shows a GitHub repository page for 'cloudcommunity / Free-Certifications'. The repository has 1.3k stars and 162 forks. The main content is a README file titled 'Free Certifications' which contains a table of free courses and certifications. The table has five columns: Technology, Provider, Description, Link, and Expiration. Two rows are visible: one for Google Cloud (Google provider, expires 31-May-2020) and one for Agile (Atlassian provider, expires 30-Jun-2020). The README also includes a warning that offers are time-limited and will expire soon.

Technology	Provider	Description	Link	Expiration
Google Cloud	Google	One free month at Qwiklabs, Pluralsight & Coursera learning platforms. Pluralsight & Coursera require a credit card. Don't forget to cancel in time. (Qwiklabs seem still to work. Rest - expired)	Link	31-May-2020?
Agile	Atlassian	Free access to Atlassian's on-demand courses (\$300 value each).	Link	30-Jun-2020

3 ■ Free Programming Books

■ Freely available programming books

README.md

Coding Interview University

I originally created this as a short to-do list of study topics for becoming a software engineer, but it grew to the large list you see today. After going through this study plan, [I got hired as a Software Development Engineer at Amazon!](#) You probably won't have to study as much as I did. Anyway, everything you need is here.

I studied about 8-12 hours a day, for several months. This is my story: [Why I studied full-time for 8 months for a Google interview](#)

The items listed here will prepare you well for a technical interview at just about any software company, including the giants: Amazon, Facebook, Google, and Microsoft.
