The media houses were given funds to produce 'fake news' namely :

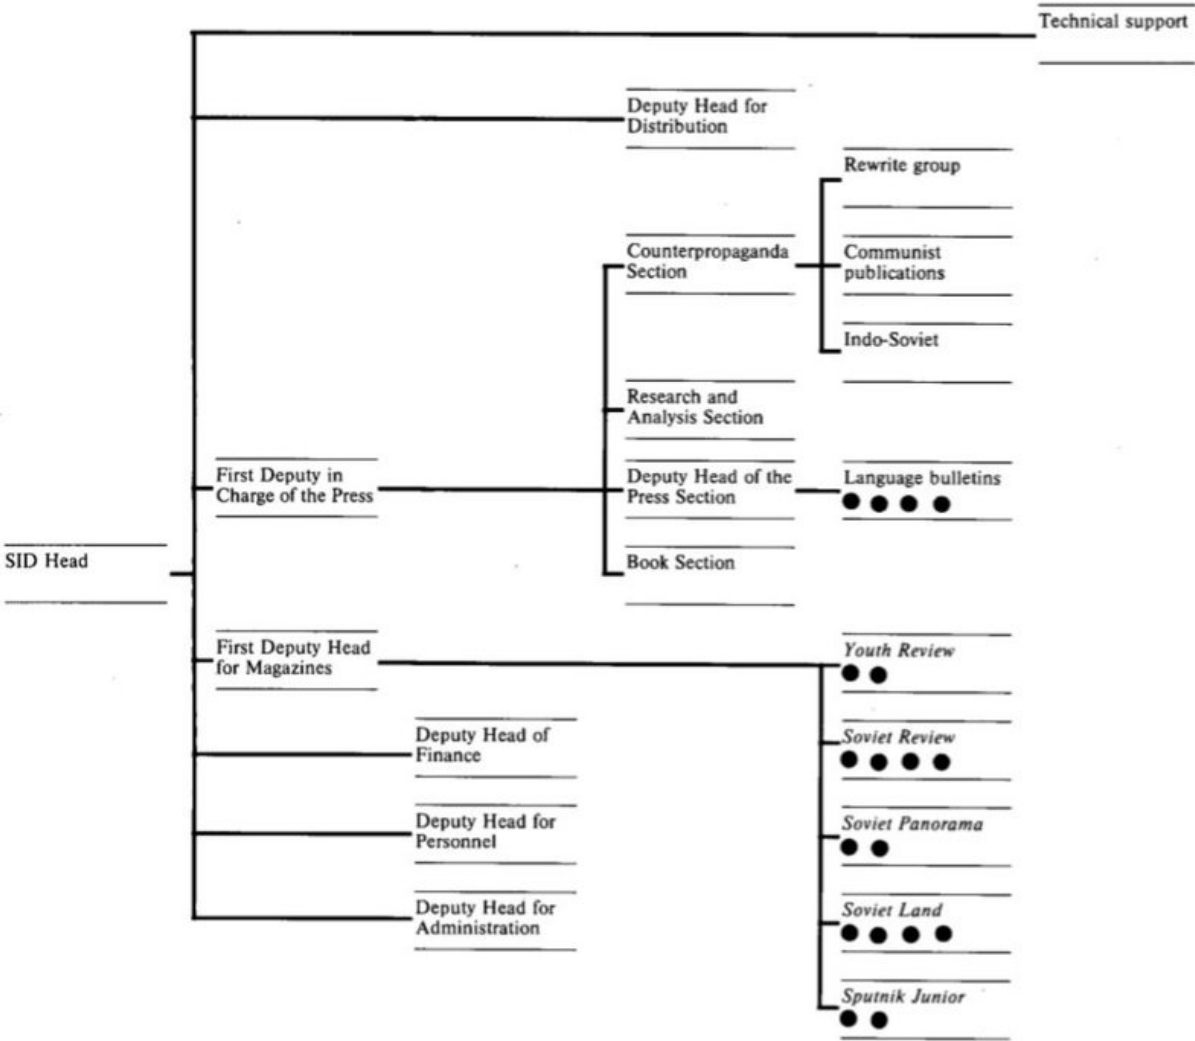

1. US was breeding killer mosquitoes in Pakistan border to attack Indian population
2. CIA was behind Indira Gandhi's assassination.
3. The US Defence Intelligence Agency was funding the Sikh terrorists.

For Indian nationals, getting a job at SID is highly competitive; applicants usually must have personal contacts in one of India's two Communist parties. Once Indians secure employment, however, they use their political contacts to protect their jobs and thereby reduce the managerial discretion of Soviet officers and the level of competence in certain sections of SID. Discipline for failure to perform adequately is rare because such attempts usually provoke a great outcry from the employees' Indian Communist contacts. A defector reported that one complaint letter even went to Brezhnev, much to the consternation of Soviet officers in New Delhi. According to the defector, some Soviet officers in SID decry the incompetence of many of the Indian employees and their own inability to manage them effectively.^a

200 Indians (staff at Soviet embassy in Delhi, Mumbai and Chennai) entertained journalists to plant KGB agendas. They had a budget of 20 million dollars allocated for propaganda activities.

Secret

It's quite clear that the Soviet aroused these Leftist feelings in the media, political parties.

It also proves that political leaders, journalists and media houses didn't mind selling their dignity and national integrity to the Soviets.
