List of Temples destroyed to build Mosjids in United Andhra Pradesh.

The data was collected before the division of the state hence regions of AP & TS are listed together in the book.

I separated it, according to the present division of districts.

Also read this before starting, pg 49.

In simple words: As this is a primary survey more moslim monuments await examination.

More names can be expected ■

Source: Hindu Temples: What happened to them by Sita Ram Goel, Vol-I.

A Preliminary Survey

We give below, state-wise and district-wise, the particulars of Muslim monuments which stand on the sites and/or have been built with the materials of Hindu temples, and which we wish to recall as witnesses to the role of Islam as a religion and the character of Muslim rule in medieval India. The list is the result of a preliminary survey. Many more Muslim monuments await examination. Local traditions which have so far been ignored or neglected, have to be tapped on a large scale.

We have tried our best to be exact in respect of locations, names and dates of the monuments mentioned. Even so, some mistakes and confusions may have remained. It is not unoften that different sources provide different dates and names for the same monument. Many Muslim saints are known by several names, which creates confusion in identifying their mazārs or dargāhs. Some districts have been renamed or newly, created and a place which was earlier under one district may have been included in another. We shall be grateful to readers who point out these mistakes so that they can be corrected in our major study. This is only a brief summary.
