Facts are a hard thing, and there's video/audio showing that she was, in fact, verbally warned not to try to break into the chambers.

She ignored the warnings. She committed suicide by cop while engaged in an armed insurrection to overthrow govt.

@MikeSington The lawyer can make all the claims he wants, but the facts and discovery will show that she caused the harm alleged. She put herself in direct harm's way.

And the lawyer should be hit with sanctions for filing a frivolous suit unsupported by the facts or reality.
