@AllianceHindus

Shreeya Singh, a student at Yale University, has started working for the Biden-Harris campaign as a media-associate. We have deep concerns about this given Shreeya's connections with Hinduphobia, Islamophobia, and anti-Semitism. She is one of the founders of @Students_A_H and

'Holi against Hindutva', a campaign that was and is deeply Hinduphobic as it falsely defamed & misappropriated a Hindu festival based on academically and religiously inaccurate interpretations of Hindu texts.
Moreover, the appropriation of this very important festival, not just

to Hindu Americans but also Hindus worldwide, for her and other people's political agenda is simply immoral, unethical, and Hinduphobic.
Coming to Islamophobia, Shreeya Singh is on record speaking positively about China and her "humbling" experience there that has positively

changed "a lot of different things" about "my view of China". This was said well after reports came in speaking about the unspeakable tragedies and concentration camps that China was inflicting on the Muslim Community.

https://t.co/aOxdqXqnqB

It's also worth asking as the Biden campaign comes under fire for enabling Islamophobia if this hire further perpetuates it.
Regarding anti-Semitism, Ms. Shreeya Singh has also been seen at protests holding a picture of Adolf Hitler being compared to India's PM, a nation with

@canarymission @HikindDov @StopAntisemites

very strong ties to the USA. It's deeply disrespectful to the Jewish community to minimize their trauma and genocide that killed millions by utilizing comparisons to Hitler. By inherently minimizing the Jewish people's sufferings, Ms. Singh is at the very least enabling anti-

Semitism that seeks to minimize the pain and trauma of the Jewish community.

We strongly request the Biden Campaign to disassociate with and fire Ms. Shreeya Singh for her actions that have hurt three important religious communities.
