Rudy Giuliani did everything wrong before, during, and after 9/11. Just an awful person. People ask “what happened” to him, but the ghoul he is today is the ghoul he was 20 years ago. <https://t.co/M18uZXd8OM>

An absolute monster who only cared about his own fame.

One of the worst people on the planet, then and now

And then, after all of that, he tried to use the attack as an excuse to cancel the mayoral election and remain in power.
