In Hinduism, #Kartik month is considered extremely pious . It is said that #Kartik #Snan is as glorious as Shri Vishnu himself or his pilgrimages. It's nobility is well described in #Padma-Purana' and '#Skanda-Purana'.

As described in our Puranic scripts the month of Kartik provides all four kinds of benefits – religious, economic, good marital life and enlightenment as first narrated by Shri Narayana to Brahma, Brahma to Narada and by Narada to King Prithu for the welfare of mankind.

In this month, devotees worship #RadhaDamodar after bathing in Brahma muhurta. The Hindu month of Kartik is important in many ways among other months. It is also mentioned as a month of lights since #Diwali is celebrated during this period.

The second ritual is worshipping 'Tulsi'. She is having special place in the month of Kartik. Since she is very dear to Shri Vishnu it is very beneficial to worship him with Tulsi leaves and its Manjari . Kartik Purnima is considered to be very important day.

It is believed that Shri Vishnu also incarnated as Matsya on the day of Kartik Purnima. Kartik Purnima is associated with #Prabodhini Ekadashi, which is the period signifying the awakening of Vishnu god. It marks the end of Chatur Maas .

There is no other month as the month of Kartik, no other era as the Satya-yug, no other science as the Vedas and no other pilgrimage as the Ganges.
