This is next phase of imperialism the west is planning to loot rest of the world,under the guise of climate control.

> If you wonder why Russia and China didn't participate in COP26 :
> They are trying to create a new global system run by banks and big corporations to better control the Global South under the disguise of "fight on Global warming"
> A new version of World bank / IMF, better marketing pic.twitter.com/FEGoGn34j9
