Person on TikTok: “There’s just a huge lack of plot based adult SFF that isn’t written by dudes, the stuff written by women is all too heavily romantic and smutty”

Me: ::cracks knuckles to fire off some recs::

(But also how does this freaking coexist with the people saying “all adult SFF is so heavy and dull, that’s why I stick to YA”)

(Like y’all I am begging you to actually read the genre before you pop off about what doesn’t exist in it)
