Ukraine crimes

Georgia election meddling

January 6th conspiracy

And MANY MANY MORE.

Giuliani faces at least 150 years of prison time out of 7 major crimes (plus dozens lesser crimes). He faces risk of death penalty even on crimes against USA

Donald Trump crimes with Giuliani carry about 95 years to Trump (on top of Trump's other crimes)

Giuliani Mini-Thread 4/

Rudy various criminal partners have confessed to many of the crimes. He himself has confessed. There are tons of collaborating witnesses. FBI had been wiretapping Rudy. And Feds now have all the evidence. His trials will be slam dunks, all of them

Giuliani Mini-Thread 5/

Giuliani is a former federal prosecutor who sent Mafia goons to life in prison. There is no prison where Rudy is safe. He has to spend his total prison time in solitary confinement: for his OWN safety. Rudy is utterly totally royally screwed

He will flip
