Topic: Should you buy the dip?

(@Nithin0dha)

https://t.co/wAouHudApy

> A lot of messages asking me if one should exit FDs, Debt funds & buy the dip. This is what I am saying: Not every dip is like March 2020 where the bounce back is immediate. This time around, if things get worse, it may take a long time to recover. Nobody knows. 1/5

I'm not the biggest fan of technical analysis, but here's some data on the budget.

Expect volatility post-event: In only 8 out of the last 22 years have the markets moved lesser than 4 percent plus/minus in the post-budget month pic.twitter.com/vDKNq4pKCR
