A Shivlinga that is shattered by lightening every 12 years!

A truly surreal location, which can be reached by a 3 km trek, Bijli #Mahadev temple in #Kullu is a must visit for Shiv Bhakts. It is believed that once in 12 years, lightening strikes and shatters the Shivlinga which

SHATTERED BY LIGHTENING**

ONCE IN 12 YEARS!

is then resurrected by the priest with butter.

The trek is absolutely beautiful and there are Trishuls all around when you reach the top. #Photography of the Shivalinga is strictly prohibited.

A must visit when you visit Kullu #Manali in #Himachal.
