**How to find reversal in stock market ■■ ( Highlighted for both top & bottom) ■**

**~ Please like & RT this thread if you find useful ■**

**~ Try to apply below logics in any stocks and post your feedback ■**

To find top■(Use Monthly chart)

~Bearish Price action (LH & LL)

~Bearish divergence

~Continuous profit booking in every small rise after huge run-up.This indicates consolidation/bearish move in near term.Don't get confuse by breakout in daily chart.

~Huge selling pressure at top
