Identifying a Bullish Breaker (a thread)

Weekend education

1. Swing Low formed
2. Swing High formed

3. Sellside Liquidity taken (aka Stop Raid)
4. Lower Low formed

5. Bullish Break in Structure
6. Now it's a valid Breaker

7. Prices trades back into Breaker "zone"
8. ■

Not all Breakers work!

Price can trade through a breaker and fail. Keep that in mind!

Stops where invented for that ;-)
