■What is so sacred about Kashi and its importance in Sanatan.■

■Kashi is the spiritual capital of our country.

Our elders have always said that, every Hindu must visit Kasi atleast once in His/Her lifetime.

It is believed that , Shiva himself has created Kashi town, so, when the entire world will cease to exist , even then Kasi would remain untouched.

■ Kashi is Rudra's(Bhairav) favourite place &daily at afternoon 12,Rudra comes to take a holy dip in Ganga at the Manikarnika Ghat.

Manikarnika means Ear ring, it is believed that the Ghat got this name because Shiva's ear ring / Vishnu's ear ring / Sati's ear ring has fallen in this place.

■ When Bhairav cut one of Brahma's head , it is believed that Bhairav was wandering with that head in his hand, and Brahma's head was absorbed in the Kashi mud, and thus Bhairav was relieved from the sin of Brahman Hatya (murder) in the holy Kashi.

■Kashi is the place of moksha for all mortals.

The holy river Ganga flows in the Kashi, and pilgrims immerse the ash of their kin in Ganga , and thus believe they would get moksha and get cleansed of all sins by Ganga bath.

■There is a famous line by a telugu poet,where He says, “He would have great gratitude towards God,if God creates him even as grass in the holy land of Kashi.”

■Kashi has been a cultural centre of northern India for several thousand years & is closely associated with the Ganges

Hindus believe that dying here and getting cremated along the banks of the holy Ganges river allows one to break the cycle of rebirth and attain moksha, making it a major centre for pilgrimage.
