Stock Screeners is an integral part of doing homework post market hours.

Most of us use screeners to filter buzzing stocks out of 1000+ stock and it saves lot of times.

Here is the list of top screeners:

Also, last screener is one of my favourite to pick early momentum stocks.

1/ Volume Buzzer:

This can be used on daily time frame and it identifies all the stocks where volume action was very high.

<https://t.co/ueUHHUHdhu>

2/ Bullish Divergence:

This screener will help you find all the stocks that has given bullish divergence. Traders who like to trade reversal stocks that are in downtrend can use this screener. This can be used at the end of the day.

<https://t.co/vsILtsHC9M>

3/ Bearish Divergence:

This screener will help you find all the stocks that has given bearish divergence. Traders who like to trade reversal stocks that are in uptrend can use this screener. This can be used at the end of the day.

<https://t.co/7vLS5Y2ehG>

4/ Nimblr F2F:

This screener was designed from [@Deishma](#) F2F video:

<https://t.co/apaQYVbAlq>

This screener helps in identifying momentum and indecisive candles on daily time frame.

<https://t.co/vJ96Vn9hrl>

5/ Volatility Contraction (Daily):

This screener can help you in picking early breakout stocks that can give good returns if bought before breakout. It focus on consolidation phase of a stock. It should be used at the end of the day.

6/ Manas Arora Elearnmarket:

This screener was designed from [@iManasArora](#) F2F video:

<https://t.co/N4lvipLKjr>

This screener will help in picking stocks that can give good returns after breakout. This screener should be used on weekends.

<https://t.co/8SBbv13idc>

7/ Bullish Divergence (Weekly):

This screener will help you find all the stocks that has given bullish divergence on weekly time frame. Traders who like to trade reversal on weekly tf can use this for positional trade.

This needs to be used on weekend.

<https://t.co/Q4ZA34m8ST>

8/ Volatility Contraction (Weekly):

This screener can help you in picking early breakout stocks on weekly tf and that can give big move and good returns if bought before breakout. It focus on consolidation phase and should be used at the end of the day.
