**Vastu is derived from the Word Vasti, which means place of residing or house. The origin of Vastu can be traced to centuries back.**

## SIGNIFICATORS (KARAKATWA'S)

Defective North leads to business problem, financial instability

We live surrounded by five elements of nature and energy of various type created by them. On an open ground these elements or energy fields operate freely, in complete equilibrium. When a structure is placed in this energy field this equilibrium is affected and has to be restored.

Vedic Maharishis always wanted to ensure the happiness and prosperity of all the living beings whether human beings or the environment around them. They always showed great concern in the prosperity and happiness of all. They created and formulated various codes of conducts for

living, which are stored in our ancient scripts like Vedas and Upanishads. Some of the very important Rishis and Maharishis who developed the norms for Vastu

- AtriRishi
- Anirudha
- Bhrigurishi
- Brispati Rishi
- BrahmaGarga
- Maya
- Narad
- Vashistaand

These details are available in Vastu Shastra by

- Vishavkarma
- Vasturatnavali
- Matsypuran
- Samargana Sutradhara
- Lilavati
- Silpratna
- Brihatsamhita

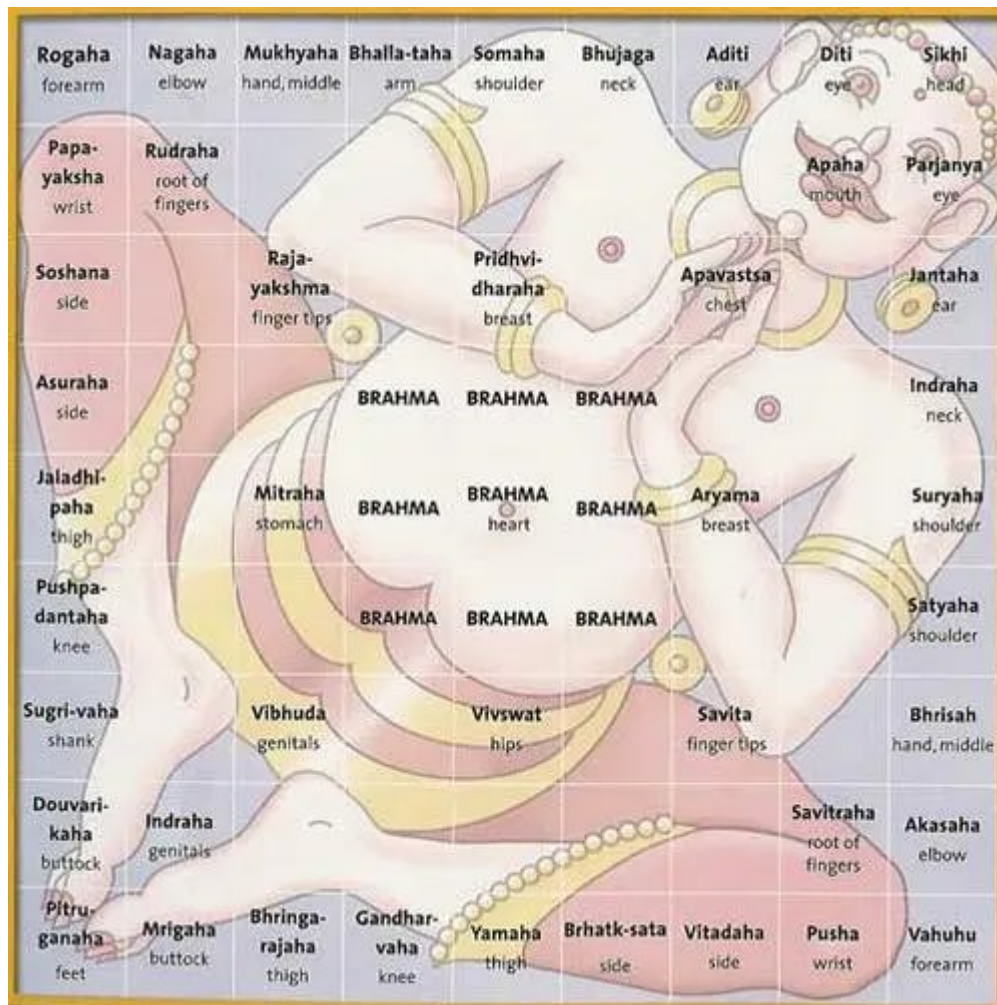

- Rajavallabha
- Narad Samhita
- Manasar
- Mayamat

and in Purans like

- Skanda
- Maysa
- Garuda
- Narad Linga
- Vayu
- Brahmandar

Rishis and Maharishis were great visionaries. They explained the mystics and mysteries of vast universe, the effect of planets on living beings and even their characteristics much.

Vastu Purusa works in Tandam with Kala Purush which signifies time. The Vastu and Kala Purush jointly influence the earth and all the living beings here. Easterly Sun ensures the purification of the Eastern area in the morning Sun while West direction is taken care by the Sun in

evening. The South-North axis provides circulation of air and utmost benefit of cool air and breeze. Vedic rishis knew perfectly well, how to live in better environment with the basic five component

we see the Vastu of India we will observe that it has a number of defects ranging from mountains in North, North East, Water in South, South West and depression in South West. The only positive aspect is that country is sloping from West to East. India has been invaded time to

time by one group of invader or other and now also it is facing a lot of problems from its neighbouring countries. Indian sages and saints have developed Vastu science after a great deal
