@canva @Wolfram Alpha 5. Hemingway

A word editor that grades writing for readability. Helps in removing errors/typos, Cut adverbs, complex words, and long sentences

Try to get readability score below 10!

<https://t.co/JWX7QhfzR6>

Hemingway App makes your writing bold and clear.

The app highlights lengthy, complex sentences and common errors; if you see a yellow sentence, shorten or split it. If you see a red highlight, your sentence is so dense and complicated that your readers will get lost trying to follow its meandering, splitting logic — try editing this sentence to remove the red.

You can **utilize** a shorter word in place of a purple one. Mouse over them for hints.

Adverbs and weakening phrases are **helpfully** shown in blue. Get rid of them and pick words with force, **perhaps**.

Phrases in green have **been marked** to show passive voice.

You can **format** your *text* with the toolbar.

Paste in something you're working on and edit away. Or, click the Write button and compose something new!

Hemingway
Editor

Readability

Grade 6

Good

Words: 133

Show More ▾

2 adverbs, meeting the goal of 2 or fewer.

1 use of passive voice, meeting the goal of 2 or fewer.

1 phrase has a simpler alternative.

1 of 11 sentences is hard to read.

1 of 11 sentences is very hard to read.

@canva @Wolfram Alpha 6: Simple Wikipedia

If you find Wikipedia's explanations complex and cumbersome, simple Wikipedia provides simplified information.

It has easy to understand words and grammar that's designed to be understood by everyone!

About Wikipedia

This is the front page of the **Simple English Wikipedia**. *Wikipedias* are places where people work together to write *encyclopedias* in different languages. We use **Simple English** words and **grammar** here. The Simple English Wikipedia is for everyone! That includes children and adults who are learning English. There are 216,798 articles on the Simple English Wikipedia. All of the pages are **free to use**. They have all been published under both the *Creative Commons Attribution/Share-Alike License 3.0* and the *GNU Free Documentation License*. **You can help here!** You may change these pages and make new pages. Read the **help pages** and other **good pages** to learn how to **write pages here**. If you need help, you may ask questions at **Simple talk**.

When writing articles here:

- **Use Basic English words and shorter sentences.** This allows people to understand complex terms or phrases.
- **Write good pages.** The best encyclopedia pages have useful, well-written information.
- **Use the pages to learn and teach.** These pages can help people learn English. You can also use them to **make a new Wikipedia** to help other people.
- **Simple does not mean short.** Writing in Simple English means that simple words are used. It does not mean readers want basic information. Articles do not have to be short to be simple; expand articles, add details, but use basic **vocabulary**.
- **Be bold!** Your article does not have to be perfect, because other editors will fix it and make it better. And most importantly, do not be afraid to start and make articles better yourself.
