### It should be illegal for marketers to have access to these 10 websites:

#### 1. Really Good Emails

Get inspired with 9,000+ curated emails from the world's top companies.

<https://t.co/FhTSIcUqWQ>

#### 2. Facebook Ad Library

The Ad Library provides a comprehensive, searchable collection of all ads currently running across Meta technologies.

Create a master sheet of brands that consistently produce killer creatives and use them for inspiration.

<https://t.co/dDhhn8wzW5>

#### 3. Web Design Inspiration

Their mission: find and showcase the best web design inspirations and trends.

Every day, they publish fresh and creative new website ideas made by creative agencies and web designers from all over the world.

<https://t.co/m3pTpfLazS>

#### 4. Fantastic Texts

Really good emails curated for you, Fantastic Texts has organized amazing marketing SMS for you.

<https://t.co/wOEXCKf9pF>

#### 5. Marketing Examples

Take a deep dive into this website and sign up for Harry's Newsletter to get marketing examples and copywriting tips.

Ahrefs Blog voted Harry's Newsletter the #1 marketing newsletter in 2021.

<https://t.co/kaZOUhQxds>

## 6. Swipe Worthy

Reverse-Engineered Marketing & Copywriting Inspiration

This is marketers & copywriters' go-to to get inspired & learn the secret psychology of top marketing promotions.

<https://t.co/a9G4AQ0zEe>

## 7. Swipe Files

Every marketer needs their own swipe file.

If you don't already have a swipe file, you need to start building one as soon as possible.

The site has 100+ examples and teardowns

<https://t.co/a6iXB16m99>

## 8. Youtube Ad Library

Video inspiration for YouTube Ads and Performance Max in our unofficial YouTube Ads Library.

Updated daily with new videos from top DTC/eCommerce brands. Totally free!

<https://t.co/3A8wsNqYHK>

## 9. Swipe Folder

Marketing & Copywriting Inspiration To Help You Convert Better

Largest Collection Of Swipes For Marketers & Copywriters

<https://t.co/g3eOyBEf0k>

## 10. The Psychology of Design

Users who interact with your product:

- Filter the info
- Seek the meaning
- Act within a given time
- Store bits in their memories

Improve user experience by understanding the biases affecting those decision cycles.
