12 Powerful Lessons From The Book "The Natural: How To Effortlessly Attract The Women You Want"

- Female Psychology Thread -

So what kind of girls tend to be interested in same-night sex? There's a surprisingly wide range, from "ready to go" girls, to "just this once" girls, to girls who protest, "I'm not that kind of girl." Each kind of girl requires a different response from you.

to become attractive, you must examine the behavior of highly attractive males and then demonstrate it yourself. Men who do this become very attractive to women.

The more beautiful the woman, the more she's used to being given all the status.

When you've made eye contact with the girl, provoke a response from her by doing something along these lines: pointing at her; waving; raising your glass; making a funny face; poking your tongue out.

If you open with, "Hey, should I dye my hair blond?" and the girl says, "Yes," and you say, "Okay, thanks! bye." you haven't accomplished anything.

Point is not to lower her self-esteem or make her feel stupid; it's just to show that you can disagree and that you have your own views and opinions. If you do break rapport, the best thing to do is quickly change the subject, to avoid turning your conversation into an argument.

Most guys fidget. They're nervous, and it shows. Their weight shifts from leg to leg. When they're out at a bar, they hold their drinks up close to their chest and frequently take sips. They don't take up much physical space, literally.

Get the best haircut you can afford.

Normally, by the end of the first minute you know how receptive your girl is, and whether or not you have a realistic chance of success.

Don't try to conquer your fear or practice pickup skills only with women you find super-hot. That would take too long.

Usually, Mr. Comfort can't start conversations very well and isn't very seductive, so it's awkward when he goes in for a kiss.

My girlfriend thinks you're hot. This line uses fake social proof, a guy with a girlfriend being higher value than a single guy out on the prowl, to make it easier to open.

The Game is 100% learnable.

Guys always ask me "Where do I start? What should I read?"

This is where to start.
