1/Today at the Tory Party Conference Theresa May has done the impossible .
She has made Jean-Claude Juncker look Statesman like.
Our Prime Minister has today made herself and all the people in the U.K. look stupid.
Her behaviour in dancing like a crab has disgraced this Country.

2/ Heads of Government don’t behave this way.
The EU will be rightfully laughing their socks off.
She needs to be medically examined as do all those who thought her speech good.
She is not Compos Mentis.
Oh dear.
