Religion is & has been for decades the driving political force in India.

Religious bigotry & hatred for India's Dharmic culture & Hinduism is the driving force for decades of religious persecution, violence, killing, rape, terrorism & genocide.

Islam & Christianity are not the victims, they are absolutely the instigators.

The communist movement in India also drives considerable violence. Communists use the already present bigotry of Islam & Christianity to drive chaos & violence for their own political motives.

This has been happening in India for decades because both Islam & Christianity, per their religious doctrine in the Quran & Bible stand against polytheism/paganism and as such, they stand against Hinduism and India's majority Dharmic population.

Islam's bigotry against India's majority Hindu/Dharmic population is backed by the Ummah, the entire worldwide body of Muslims, Islamic nations, Islamic organizations, that support & act for Islam above all, even above the sovereignty of nations & states. Islam always comes first

Christianity's bigotry against India's majority Hindu/Dharmic population is backed by Rome, the predominantly Christian western nations & Christian churches & missionaries globally of ALL denominations who invest billions in their fight against polytheism & to convert Hindus.

Against this onslaught of hatred & bigotry brought about by Islam & Christianity against their religion, their culture, their heritage & their way of life, Hindus stand alone as the descendants of the founders of their great and ancient Vedic/Dharmic civilization.

India is the seat of Hinduism which originated well over 5,000 years ago with the ancient Vedic culture of India (Bharat). India is the seat of all Dharmic faiths that came from this ancient and incredible Vedic culture including Hinduism, Jainism, Buddhism & Sikhism.

The Abrahamic religions of Islam & Christianity have destroyed almost every polytheistic/pagan culture they have come in contact with. They have murdered hundreds of millions in the process. They have never changed their views on polytheism so they intend to do the same to India.

For this reason, every citizen of India of Dharmic faith, be you Hindu, Jain, Buddhist, or Sikh. You must stand United. Every non Christian or Islamic nation and all rational human beings of the world should be standing united with India to preserve their ancient culture.

I pray for peace in this world & an end to the religious bigotry both Islam & Christianity foster in our world

I pray for a Hindu Rashtra for India to preserve Dharmic culture in our world & provide a pluralistic nation safe for all religions of world

Om shanti, shanti, shanti
