@SethAbramson

As I know from my many years as a criminal defense attorney, GP, inmates can usually get books if they're sent directly from the publisher. What is your inmate number going to be? I will try to get you a copy of PROOF OF COLLUSION to help you pass the time while you're in prison.

Looking forward to watching [@SethAbramson](#)'s world collapse around him when he realizes he has been absolutely wrong about his apparent 'insight' since day 1. I repeat, trust the insiders, not the nuts.

2/ As GP rails against Mueller to help sell movie rights to his story (or whatever), here's what his attorneys actually said in court: "Our firm would in a second stand up if we saw prosecutorial or governmental misconduct. We have seen no such thing." But they didn't stop there.

3/ George's attorneys added, "We have seen no entrapment. We have seen no set-up by U.S. intelligence people. Everything we saw, they've been on the square." So apparently on the same day my world "collapses," George's lawyers will *also* experience a massive temporal distortion.
