As rightly pointed out by experts, Asian Paints' dominance in the Paints Industry is unshakable. Even the entry of a formidable rival, the specter of a lock-down & alleged nose-bleed valuations of 88x has made no difference to the megabagger. The stock is up 83% on a YoY basis. <https://t.co/OFnFAbnQGA>

Asian Paints vs. Grasim: Paints is not a very easy industry at all. It is a low-capex consumer business. Asian Paints has built its business over last 35-40 years. The Birlas are not in any consumer businesses. So it is going to be tough for Grasim <https://t.co/CqkmFnsaiT> [pic.twitter.com/iK8ZcvYxpJ](https://pic.twitter.com/iK8ZcvYxpJ)
