Timings for Swati Nakshatra for tomorrow: 1:34AM IST on 18 July to 12:08 AM IST on July 19.

Information and instructions in two images enclosed herewith. Rainwater falling in this duration will count.

If you are abroad, check timings from Drik Panchang app/site for your city.

Chatak bird drinks rain water only when it pours in Swati Nakshatra. Such is the importance of this Nakshatra. When it rains in Swati, collect the rain water in a plate/bowl, store it in a bottle and keep it at a place where you keep money.

It helps in inflow/increment of money.

You don't have to get wet in the rain. When it rains in Swati, simple keep the dish or bowl where water will get stored and when 40-200ml water has been collected, simply store it in an air-tight bottle. Just make sure to not mix water from other source.

Keep in temple at home. Don't touch the container too often.

I don't have a place in my house where I store my money, I don't have much, but what ever I have, I keep it in the bank or P/O, use my ATM card to pay. What shall I do to multiply it? <https://t.co/icM177OG8v>
