#Bhel up 5% since post

It crossed 63, now price action important, if sustains above 63, can possibly head towards 69-75 zone

RSI looking bullish

Not a trading call , academic post https://t.co/0IAjXZ5C88

> #BHEL monthly chart, if the stock is able to trade above 60-63 zone, we may see significant upmove in this stock, Monthly RSI is 50+ & moving up.
