Prof Valsamis Mitsilegas tells NI committee that the agreement on JHA is dynamic, as EU values UK inputs, and EU law will evolve over time, and value of system to UK will mean adaptation

Prof Steve Peers of Esssex Uni. Tells NI cttee that deal keeps 3/4 of previous arrangement, missing quarter is SIS II and some other capabilities in data exchange. Says quite a lot has been preserved by two sides, esp compared to no deal situation

Simon Hoare MP - is the deal adequate to challenge of policing NI, and IRL: Dr Gemma Davies (Northumbria law school). Says Data Protection issues v complex, PSNI/AGS co-operation might be better facilitated by specific agreement (not going beyond EU agreement, but clarifying)

Colin Murray tells NI cttee that Norway/Iceland extradition arrangements with EU put in place 10 years ago, now working in ways comparable to EU arrest warrant. Operational issues get easier to fix over time.

Colin Murray says there are break clauses in the TCA, and the police element could break down in a relatively short period (in theory).

Ctte Chair Simon Hoare says thats not going to happen in real world, as all countries committed co-operation. No “wide open Serengetti” between legal systems for criminals to exploit.
