### Part 2 of

**There is no Child Prostitution**

**IT IS RAPE ■■**

**When you see the light, you see the problem as solvable, and not just as a dark issue you can't do anything about !**

"The Majority of creation and consumption is demonstrated in a type of sexuality, that is inauthentic to who we are as human beings.

It is a performance. It never speaks about intimacy.

It never speaks about love, caring, gentleness and all the other aspects of a healthy sexual

relationship.

It doesn't create a space for consent. It doesn't create a space for an evolution in our sexuality. It literally again is the opposite of what we want to be teaching any young person about sex".

HOW CAN WE PROTECT OUR CHILDREN ?

Safety Tips for Parents

- Work hard to establish trust and communication with children from day one
- Don't ever leave kids unattended in a car, whether it is running or not
- Make sure you know how to contact them at all times
- Have an emergency "call" list and make sure

they know the numbers

- Take an active roll in your children's activities
- Take time to listen intensively to them when they tell you that they had a bad dream. Trust your instincts.
- Talk to them about inappropriate incidences you heard about, get their perspective

- Question and monitor everyone who takes an unusual interest in your kids
- Teach your kids to be rude to adults if they feel threatened by them
- Teach the difference between "OK" and secret "Not OK"
- Have your child practice their most annoying scream

- Check Websites for registered sex offenders in your neighbourhood and talk to your kids why they need to avoid them
- Keep the family computer in a central location so it is easily monitored

#### Safety Tips for Children

- Know your name, address and phone number(s)
- Learn how and when to call 911
- It's OK to be rude to a grown-up if you feel you are unsafe
- Learn the difference between an "OK" secret and a "NOT OK" secret and beware of an adult that asks you

to keep a secret from parents

- Don't let anyone on the phone or on the door know that you are at home alone
- If you ever get lost in a mall, ask the closest store clerk for help and then stay where ever you are until you are found
- Avoid shortcuts when you are

walking from one place to another

- If you are ever "scooped", scream, kick, bite and FIGHT as hard as you can to get away! NEVER trust what the "scooper" tells you
- Tell your parents or a trusted adult, if someone is asking you to do something that makes you feel

uncomfortable. Listen to your "Uh Oh" voice.

- Always ask your parents for permission before getting on the Internet
- Never talk to people online without you parents permission

- Never fear someone else threatening you to keep a secret  
and not to tell your parents

#### WHAT WE CAN DO AS A COMMUNITY !

Most sex trafficking starts with degradation how men see and respect women. If we fight the symptoms of trafficking by rescuing children, we fight the cause by helping see people that women are not a commodity.
