We - myself from AIPWA, @kawalpreetdu from @AISA_tweets and advocate Sneha from @HRLNIndia are in Kanth, #Moradabad to meet the Muskan and Rashid, the couple who are victims of illegal arrest, forced abortion by @UPPolice under the hateful ordinance passed by @myogiadityanath

> #Moradabad_update
> On Sunday, @joerwallen & I broke the story of Pinky\u2019s miscarriage for @Telegraph. Today Pinky's husband Rashid and brother Salim were released from jail. Now the question arises that who misuse new Law? Bajrangdal? If yes, Will they be punished?#Love_Jihad pic.twitter.com/z18ItTVCsL

We found that 1) Muskan is very weak after her miscarriage, and the Moradabad District Hospital where she was admitted has not given her the treatment papers, nor any course of antibiotics and painkillers to prevent post miscarriage infections that can affect fertility in future

2) The first dose of antibiotics & painkillers Muskan received is today - after we got her to speak on phone to a senior gynaecologist in Delhi, who explained that antibiotics are always prescribed following a miscarriage, to prevent infections.

3) Muskan alleges that the hospital administered abortifacient injections after which she suffered a miscarriage. What is indisputable is that the hospital deliberately failed in its duty to a patient, a) by not telling Muskan re the miscarriage b) by not prescribing antibiotics

and c) by withholding her treatment papers which every patient is supposed to receive
Moreover, how did the head of the UP State Commission for Protection of Child Rights Dr Vishesh Gupta, declare that pregnancy was intact? On whose orders did Dr Vishesh Gutpa lie?

According to reports, the 22-years-old girl was admitted to a hospital after she complained of stomach ache and bleeding. But in an ultrasound checkup, everything was found to be fine, following which she was discharged. Later, she was again admitted when she complained of the pain again. She has been currently kept under observation.

A week ago, after the first case of Lo Jihad came to light, the police, acting a complaint, arrested a man, identified as Rashid, and booked him under the new anti-conversion law, while the woman was sent to a protection home. A few days later, several sections of media reported that the woman, who was shifted to a government shelter home, was forced into abortion.

4) Muskan told us that the police officers told them on day one itself that no case was made out against them, since a November ordinance could not apply to a July marriage anyway. Yet why did @moradabadpolice arrest Rashid and his brother Salim and take Muskan into custody?

Why did @moradabadpolice not instead arrest the Bajrang Dal goons who beat up Rashid's elder brother Salim, roughed up and abused Muskan and her mother in law, and tried to lynch Rashid's younger brother? Who will face accountability for the miscarriage & Muskan's ravaged body?

5) Muskan is an educated young woman, who met Rashid when she was living & working independently in Dehradun. They fell in love, courted each other for over a year, then got married in July 2020. Only when they went to get the marriage registered did the Bajrang Dal intervene

6) A lawyer took Rs 5000 from Rashid's mother to get the marriage registered. Either he, or someone in the bureaucracy who was part of the registration process, must have informed Bajrang Dal which pressured Muskan's mother to file an FIR under the new UP anti love ordinance.

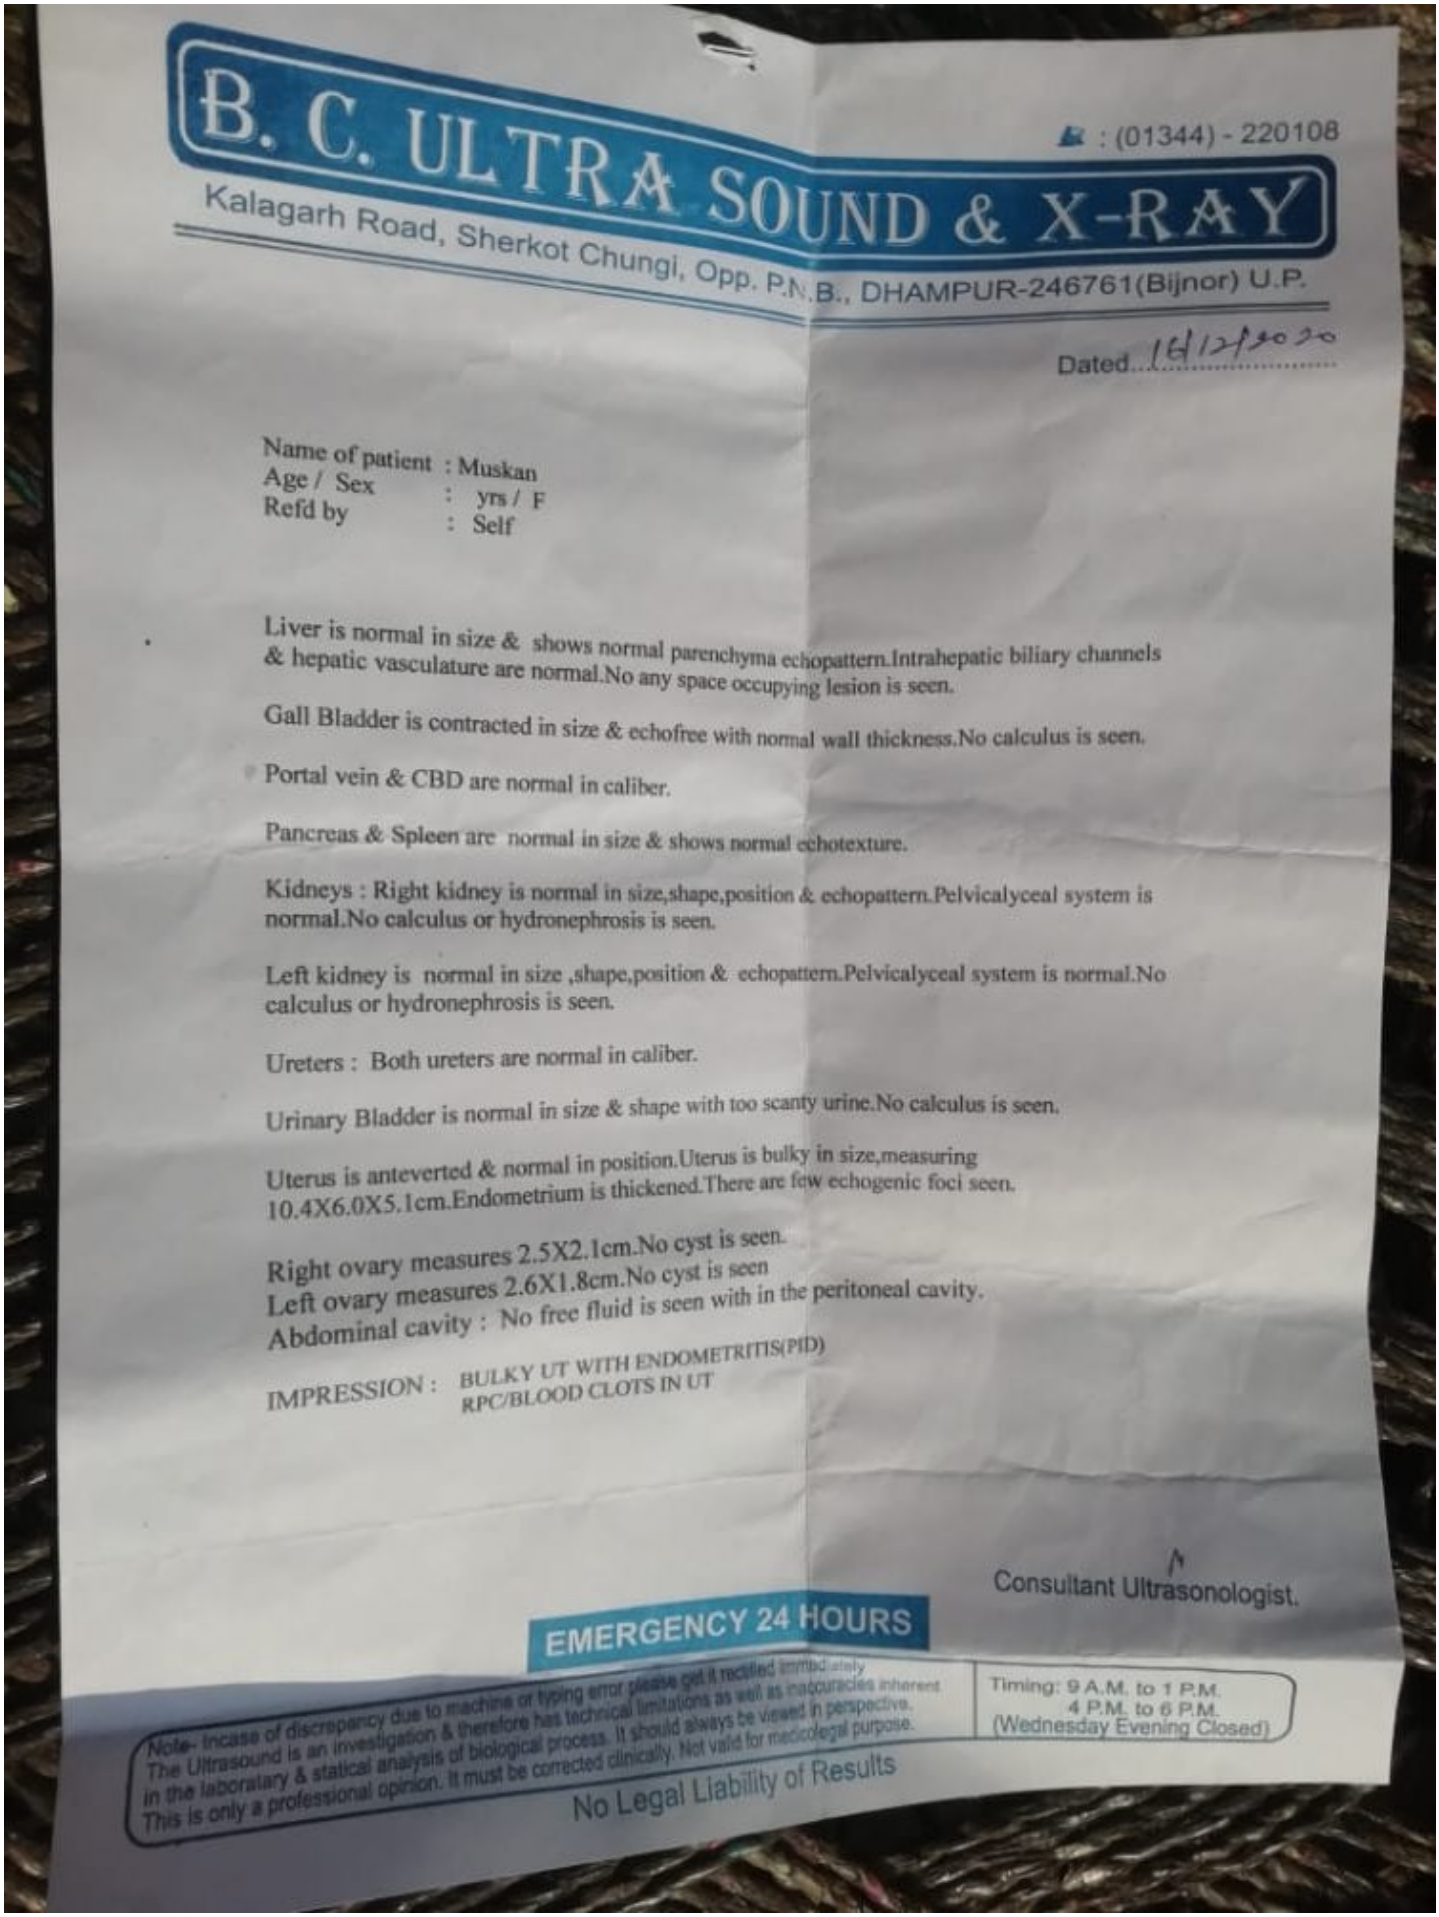

It was heartrending to see Rashid and Salim & their mother & aunts weeping at their release from imprisonment. Lovely to see the young couple, in the midst of media noise, whisper to each other to ask how the other was doing.

May love triumph over the BJP's hateful ordinance. May India cherish its young lovers who, in breaking caste and faith boundaries, offer us hope for a new future. May Muskan's courage & confidence give us all hope.

Final point - @moradabadpolice itself approached the magistrate to inform that they've no evidence against Rashid and Salim, leading to them being freed. The truth is that were it not for @SartajAlamIndia & @joerwallen breaking this story, the police would never have backed off

Will @bainjal apologise for her fact free tweets peddling UP officials' lies, undermining journalists like @SartajAlamIndia & @joerwallen? Attached: Muskan's ultrasound report that clearly shows miscarriage, no intact foetus.

B. C. ULTRA SOUND & X-RAY

: (01344) - 220108

Kalagarh Road, Sherkot Chungi, Opp. P.N.B., DHAMPUR-246761(Bijnor) U.P.

Dated 16/12/2020

Name of patient : Muskan
Age / Sex : yrs / F
Refd by : Self

Liver is normal in size & shows normal parenchyma echopattern.Intrahepatic biliary channels & hepatic vasculature are normal.No any space occupying lesion is seen.

Gall Bladder is contracted in size & echofree with normal wall thickness.No calculus is seen.

Portal vein & CBD are normal in caliber.

Pancreas & Spleen are normal in size & shows normal echotexture.

Kidneys : Right kidney is normal in size,shape,position & echopattern.Pelvicalyceal system is normal.No calculus or hydronephrosis is seen.

Left kidney is normal in size ,shape,position & echopattern.Pelvicalyceal system is normal.No calculus or hydronephrosis is seen.

Ureters : Both ureters are normal in caliber.

Urinary Bladder is normal in size & shape with too scanty urine.No calculus is seen.

Uterus is anteverted & normal in position.Uterus is bulky in size,measuring 10.4X6.0X5.1cm.Endometrium is thickened.There are few echogenic foci seen.

Right ovary measures 2.5X2.1cm.No cyst is seen.
Left ovary measures 2.6X1.8cm.No cyst is seen
Abdominal cavity : No free fluid is seen with in the peritoneal cavity.

IMPRESSION : BULKY UT WITH ENDOMETRITIS(PID)
RPC/BLOOD CLOTS IN UT

Consultant Ultrasonologist.

Timing: 9 A.M. to 1 P.M.
4 P.M. to 6 P.M.
(Wednesday Evening Closed)

No Legal Liability of Results

Short lesson for @bainjal - RPC, blood clots in uterus, means "retained products of conception" - that is, fetal residue left in the uterus after miscarriage/abortion. The UP officials lied, and you amplified those lies without a thought for the young

woman victim of this horror.

Since @bainjal has blocked me, please, someone not yet blocked by her, bring my tweets to her notice ■■.
