India ETFs & Index Funds
@IndiaEtfs

Know the index structure & what your are buying!

To keep it simple, N500 index fund is sufficient, as it covers 95% of the entire market.
Or

N100 is 78% of the market, where N50+NN50 is 80:20 ratio.
Have higher risk appetite? buy 50:50 of N50+N100.
