Ron Johnson is THE most vulnerable GOP Senator up in 2022. After the insurrection, 60% of Wisconsinites said he should be replaced. But it'll take a massive effort to win. We just need 197 new monthly donors to reach our January goal of 1000—chip in now!

The Biden-Harris administration has a massive to-do list because of the mess Trump left behind. But it wasn't just Trump. One of his most destructive accomplices came from right here in Wisconsin: Senator Ron Johnson. https://t.co/T8PO69Mylo

Johnson added fuel to the fire of insurrection, pushing conspiracy theories and even saying he would vote against certifying electoral college votes. Then he flip-flopped, and now openly says that effort would've disenfranchised voters. https://t.co/640bYzU046

When COVID first arrived, Johnson loudly questioned the science. He never stopped. In December, after coronavirus had infected half a million Wisconsinites, Johnson held a hearing pushing quack pseudoscience. This puts us all at risk. https://t.co/sKzDcMv7I4

The pandemic has been economically brutal for Wisconsin, pushing people out of jobs and into poverty. What did Ron Johnson do? In December, he voted against the coronavirus relief plan—just one of six Senators to do so. Embarrassing. https://t.co/8xtajr6eJ0

And what is Johnson doing now? Doubling down on his macabre role as an obstructor of progress, a hostage-taker in the fight for democracy, prosperity, and national security, and a national disgrace. The @CapTimes just called for him to be expelled.

While 55% of Wisconsinites think Ron Johnson should resign, the more shocking finding is that 30% of Wisconsinites have no opinion of him at all. If these Wisconsin voters knew Johnson's record, they'd vote him out in 2022. We have our work cut

out for us.https://t.co/ZoqIM1jDvs

Trump may be out of the White House, but his best buddies, *including* Ron Johnson, still have a job—even after inciting a riot and pandering to Trump during his entire administration. So we're going to hold Johnson accountable and end his political career.

Defeating Ron Johnson won't be easy. The Democratic White House and 50-50 Senate split will motivate the GOP to do whatever it takes to take control of the Senate in 2022. All eyes will be on the Wisconsin Senate race.

But we have a real shot at sending Ron Johnson packing—because we learned so much from 2020. We know that in order to win, we need to organize and communicate year-round. And that's exactly what we're doing.

We're laying the groundwork right now to reach every voter in Wisconsin with the full story of Johnson & the harm he's caused our families while governing in our name. We're building teams to organize young people, workers, communities of color, rural voters—and boot Johnson out.

This means *lots* of conversations, public education, organizing folks who've previously been disenfranchised, and ads, like this one that we aired in every region of Wisconsin demanding Ron Johnson resign:

As we plan for the year ahead, we know that the sustainable support from our monthly donors will determine the success of our work to defeat Ron Johnson.

By midnight today—the end of the first month of 2021—we need 197 new monthly donors. Set us off on the right foot and become one of our monthly donors today: https://t.co/hr8sJFWiza

If you start a monthly donation, let me know below! ■

I want to personally thank you! ■

Less than 9 hours to go, and we're less than 100 donations away from our January goal to defeat Ron Johnson!
