### Twitter Thread by Harlem Flipper

# So it turns out that <a>@RepBillJohnson</a> is pretty cozy I guess with one of the guys who just tearfully confessed to his part in the #CapitolRiots

Here is Adam Newbold, former Navy SEAL, in an <u>@ABC</u> report that includes video of him boasting of "breaching the capitol" and how "to get in, we had to destroy doors and windows."

#### https://t.co/Ndg2mIXpQ1

Adam is a director of ATG Worldwide, a company in Lisbon Ohio that provides weapons and tactical training. Their website says they serve "a wide variety of federal agencies, law enforcement and military clients."

#### https://t.co/MFfBvCfZ41

They have a Facebook page, with Adam's more recent videos about what a hero he was standing up to save his country. These new videos omit his previous boasts of destroying federal property and "breaching" a building with his fellow terrorists.

#### https://t.co/XcOAP1PfEd

And that page also includes a lovely post about ATG Worldwide having a "range day" for <a href="mailto:@RepBillJohnson">@RepBillJohnson</a> and his staff. https://t.co/iqBD42Ekt1

Here is a screencap in case some stuff disappears.

It should also be noted that ATG and its terrorist Director have close relationships with local and state law enforcement. They provide training for a lot of public agencies, even some schools.

This fucker has been living off our taxes, in other words.

I hope some can follow up on his other connections. <u>@Tylerjoelb</u> <u>@plunderbund</u> <u>@jpelzer</u> <u>@jbalmert</u> <u>@lizskalka</u> @darreldrowland

## Oh, shocking <a href="https://t.co/UQ4Uhd4tTY">https://t.co/UQ4Uhd4tTY</a>

I voted NO on the 25th Amendment Resolution tonight.

I will vote NO on impeachment tomorrow.

Here\u2019s why \u2b07\ufe0fhttps://t.co/yiU8UkgSN4

— Bill Johnson (@RepBillJohnson) January 13, 2021

More fun from ATG and its terrorist director: a "breacher" course. Wonder how everyone got in? Adam helped them "breach the capitol" (his words) and he is a professional at this. https://t.co/h9OUrxkXnv
