■New lockdown regulations just published, in force tomorrow

The Health Protection (Coronavirus, Restrictions) (No. 3) and (All Tiers) (England) (Amendment) Regulations 2021

https://t.co/L5jwlTDaIE

(Thread)

These are not a new set of regulations: they are amendments an old set of regulations

Which we thought were gone! But they are back

Welcome back No.3 regulations

A quick thing before we continue!

I have been analysing these laws for free for 9 months now - if you want to say thanks and have a few £ to spare please give to my @LawCentres fundraiser

They give free legal advice to people who need it most

https://t.co/NqjdiiAjqW

They also amend the All Tiers regulations

Oh god it's all amendments by paragraph references

Basically all of England now in Tier 4 and Tier 4 is amended but not by a huge amount

This really is a terrible way to make laws on the fly - who can possibly understand it?!

So, to explain, you need 2 documents open if you want to understand what is going on:

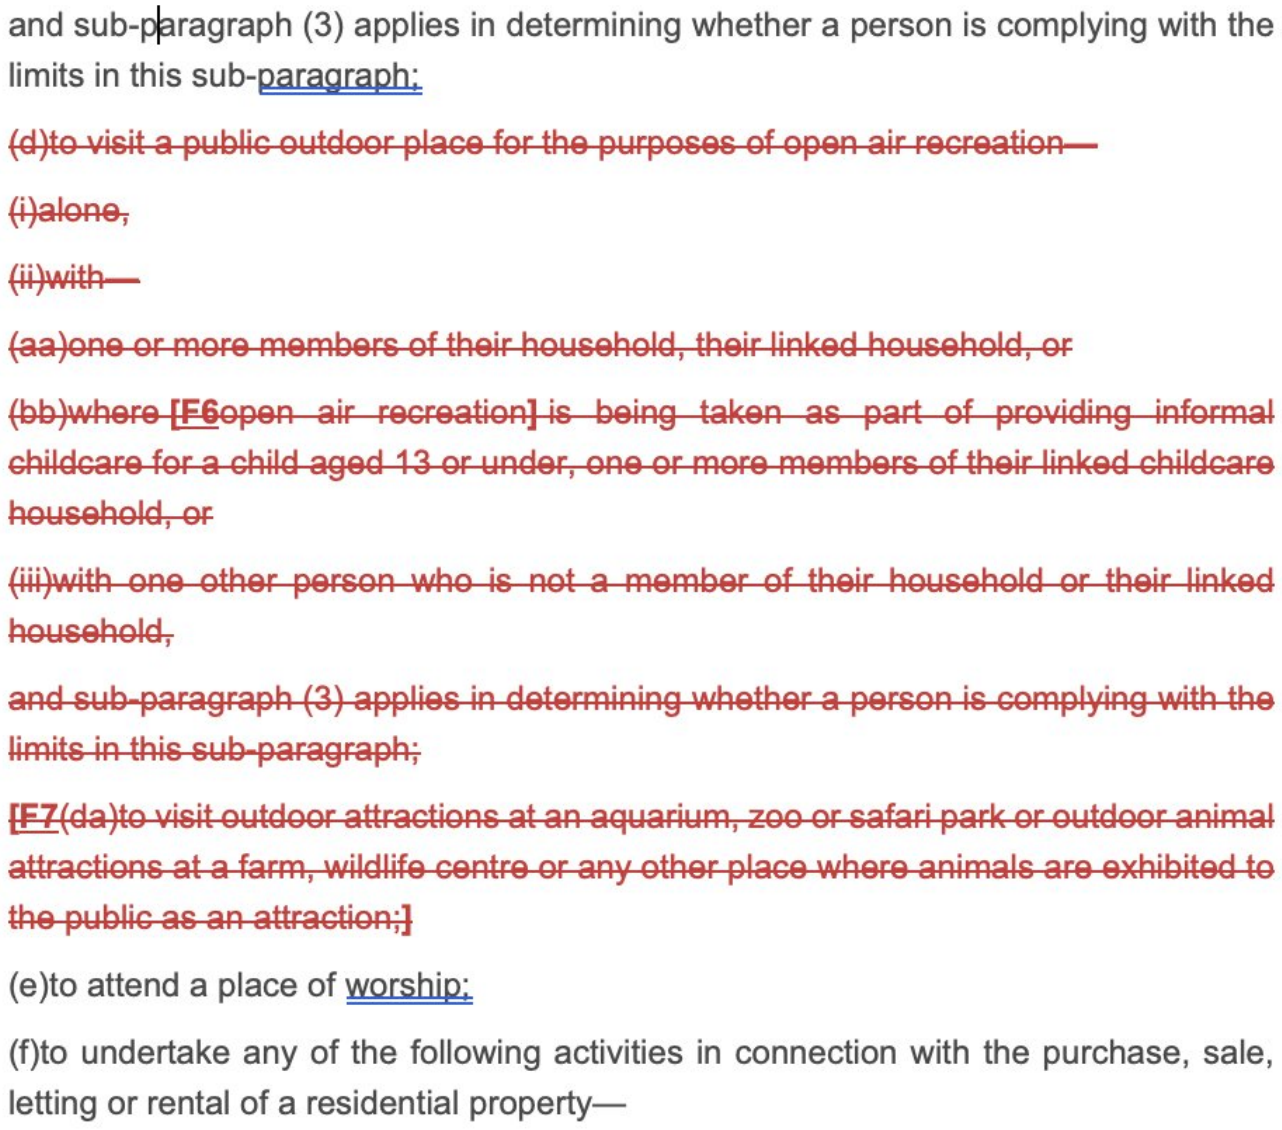

All Tiers regulations (Tiers 1-4, 2 December as amended) https://t.co/IraPQ112ak

And amendments https://t.co/L5jwlTDaIE

No sensible way of doing except by track changes, on it now, back soon

First thing to go is "open air recreation" which is what we suspected based on the guidance.

So this means that you can go out for exercise (or any other listed reasonable excuse) but not to recreate (is that the verb?).

and sub-paragraph (3) applies in determining whether a person is complying with the limits in this sub-paragraph;

~~(d)to visit a public outdoor place for the purposes of open air recreation—~~

~~(i)alone,~~

~~(ii)with—~~

~~(aa)one or more members of their household, their linked household, or~~

~~(bb)where [F6open air recreation] is being taken as part of providing informal childcare for a child aged 13 or under, one or more members of their linked childcare household, or~~

~~(iii)with one other person who is not a member of their household or their linked household,~~

~~and sub-paragraph (3) applies in determining whether a person is complying with the limits in this sub-paragraph;~~

~~[F7(da)to visit outdoor attractions at an aquarium, zoo or safari park or outdoor animal attractions at a farm, wildlife centre or any other place where animals are exhibited to the public as an attraction;]~~

(e)to attend a place of worship;

(f)to undertake any of the following activities in connection with the purchase, sale, letting or rental of a residential property—

Before I go on - this is going to sound a bit abstract unless I explain that the new "lockdown" is an amendment to the Tier 4 restrictions. Tier 4 was a lockdown but slightly less strict than March.

This is my thread on Tier 4 - perhaps read that first https://t.co/zkKiVO62cd

Some minor changes here to Exception 1 to being outside the home ("leaving home necessary for certain purposes").

Key point is the original reasons - work, voluntary services etc. etc. are still there

"public outdoor place" can't include sports grounds or facilities

(3) For the purposes of determining whether a person is complying with the limits in—

(a)sub-paragraph (2)(c)(ii) ~~and (d)(ii),~~ no account is to be taken of any person who is present as a carer for a person with a disability who needs continuous care (a "carer"),

(b)sub-paragraph (2)(c)(iii) ~~and (d)(iii),~~ no account is to be taken of a carer or a child below the age of five,

provided that, in either case, there are no more than two people present in the capacity of carer.

(4) A place is a public outdoor place for the purposes of this paragraph if it is a public outdoor place other than a fairground or funfair and—

(a)no payment is required by any member of the public to access that place, or

(b)the place falls within one of the following categories—

~~(i)outdoor sportsgrounds or sports facilities,~~

(ii)botanical gardens,

(iii)gardens or grounds of a castle, stately home, historic house or other heritage site.

Important to see that you still don't count a child under 5 or person with disability who needs continuous care when you are with someone from another household for exercise

Not in the guidance I think but maybe they don't want to publicise

Next change is to para 13 so the exceptions almost all stay in - see last thread https://t.co/DnXxk1DQfK

Paras 13 and 14 are about childcare. Some small but important changes:

I think it means that you can only provide informal childcare for "critical workers" in very limited circumstances

Tell me if I'm wrong

Children's outdoor sports gatherings removed as a reasonable excuse - we knew that from the guidance

Parents and child groups no longer permitted

What is important really is how similar this is to Tier 4:
- No open air recreation
- No parents and child groups
- More limited informal childcare options (I think)
- No children's sport or other outdoor sport such as tennis)
But otherwise its very similar

Elite sport and sport for people with disabilities is still permitted

Also well trailed in the announcements is the closure of outdoor sports facilities such as swimming, gyms, sports grounds

No alcohol takeaway

Have to pop off to eat, back later! That's basically it though, not much else changed from Tier 4

Oh, before I go, so as not to build tension, here's what's not in the law which is in the guidance :
- Time limit on outdoor exercise;
- Geographical limit on outdoor exercise
- Travel between areas.

I was indeed partly wrong on informal childcare, apologies https://t.co/s44qSsp88I

> I think you\u2019re wrong (sorry!). I think this applies to provision of education/wrap around care etc (\u2018supervised\u2019 childcare) not to childcare bubbles (the \u2018informal\u2019 childcare exception, which was (is? Who knows anymore?) at 13(f)). pic.twitter.com/rrZnBlXGOZ

Charles has it here https://t.co/eY1P4nk7cD

> (7) The reasons deemed reasonable for placing a child in childcare / supervised activities were complex - they are now more complex - here is the old and the new - one wonders how realistic it is that parents are going to scrutinise this granular level of detail pic.twitter.com/Gzt2Alq5RL

I am going to wait until there is a consolidated version of the regulations to make a new video, hopefully tomorrow afternoon. I understand that the amended version of the regulations should be up tomorrow

All this remains in place https://t.co/5oaU0W3RjD

> More important exceptions
> - Reasonably necessary for work/charitable/voluntary services where not reasonably possible to do it from home.
> - Note this is not restricted to Tier 4, so you can travel between tiers if you fulfil this exception

And this is still there https://t.co/ClJGeOkZwE

> Another really important one -

Communal worship still permitted https://t.co/94CtyjP41i

> Communal worship allowed - this is a change from the Nov/Dec lockdown which only allowed individual worship pic.twitter.com/8PkL6UjLmA

Linked households (bubbles) remain the same - exactly the same, people. Really important to get that https://t.co/VpcNmSAayM

> No there are more linked households:
> \U0001f481\u200d\u2640\ufe0f1 adult
> \U0001f9d2\U0001f9d21+ children (no adults)

One other error sorry - it is the carer of a person with a disability who needs continuous care who doesn't 'count' for gatherings not the disabled person themselves https://t.co/Mpt5DLb0YX

The amendments have a sad little ending

Here is my unofficial and probably unreliable track changes version of the Tier 4 rules. Please don't rely on it, for illustrative purposes only! https://t.co/GmVC9GwjhN
