Euthinasia was & still is a misnomer. The "Lethal Chamber" as the called it, was created by Dr. Benjamin Ward Richardson & first emerged out of the victorian era in Britain & first used in Battersea Dogs Home and later opened up for human use in Washington Square.

Fabian & eugenic extremist George Bernard Shaw lectured at Londons Eugenic Education Society about mass murder in lethal chambers. He placed an add in a spread sheet newspaper asking for a scientist to develope a chemical gas.

London School of Eugenics Education Society

Australia's Anthropometric Eugenics Laboratory.

Anthropometric sounds much like the term anthropological used by the WEF Eugenics Climate Change movement & that's funded today, by the same groups that funded the International Eugenics Commission for race betterment.

Italy's eugenics

Japan's Department of Eugenic's

France Eugenic Society

Sweden Eugenic Society

Britain Eugenic Society

Tibet Eugenic Society
