Jubilant Ingrevia - I always look for bullish candlesticks at major support/resistance points. Here is a beautiful bullish Morning star right at the trendline support after a brief selling for three days. https://t.co/feSXlVhoya

Also on my radar for today:

1. ACE (Entry already done & SL is 230)
2. Jubilant Ingrevia (SL 550) - stock re-tested support pic.twitter.com/3S9UdDhhHL
