Use these 6 AI websites to finish hours of work in minutes (take a look):

1. Sheet+

Become a spreadsheet master with Sheet+ AI-powered tools.

- Convert text to formula
- Convert formula to explanation
- Debug formulas
- Generate VBA code
- Get instant answers to any spreadsheet question

■ <https://t.co/fWsAeKa6ko>

TEXT TO FORMULA

Convert Text to Google Sheets and Excel Formulas

Simply input a description of the formula you require and our AI will generate it accurately within seconds.

No more struggling to remember complex formulas or spending hours trying to create them from scratch.

→ [Start Generating Formulas](#)

Formula Generator

Convert any text to Excel formulas with AI. Enter a detailed description of the formula that you require and our AI will generate it within seconds.

spreadsheet program

Excel

What is the formula that you want?
Provide a detailed description of the formula that you want and try to be specific, such as by providing the column/row name or number.
Get the first word of AI only if the first word is 'help'.

Generate formula

FORMULA TO EXPLANATION

Get Explanations For Any Formula

Get instant, expert explanations for any Excel or Google Sheets formula.

Simply input your formula, and our AI assistant will provide step-by-step breakdowns and explanations of how each component of the formula works and what it does.

→ [Get Started Now - It's Free!](#)

Excel

Formula

=SUMPRODUCT(--(EXACT(B:B,Salary)))

Generate explanation

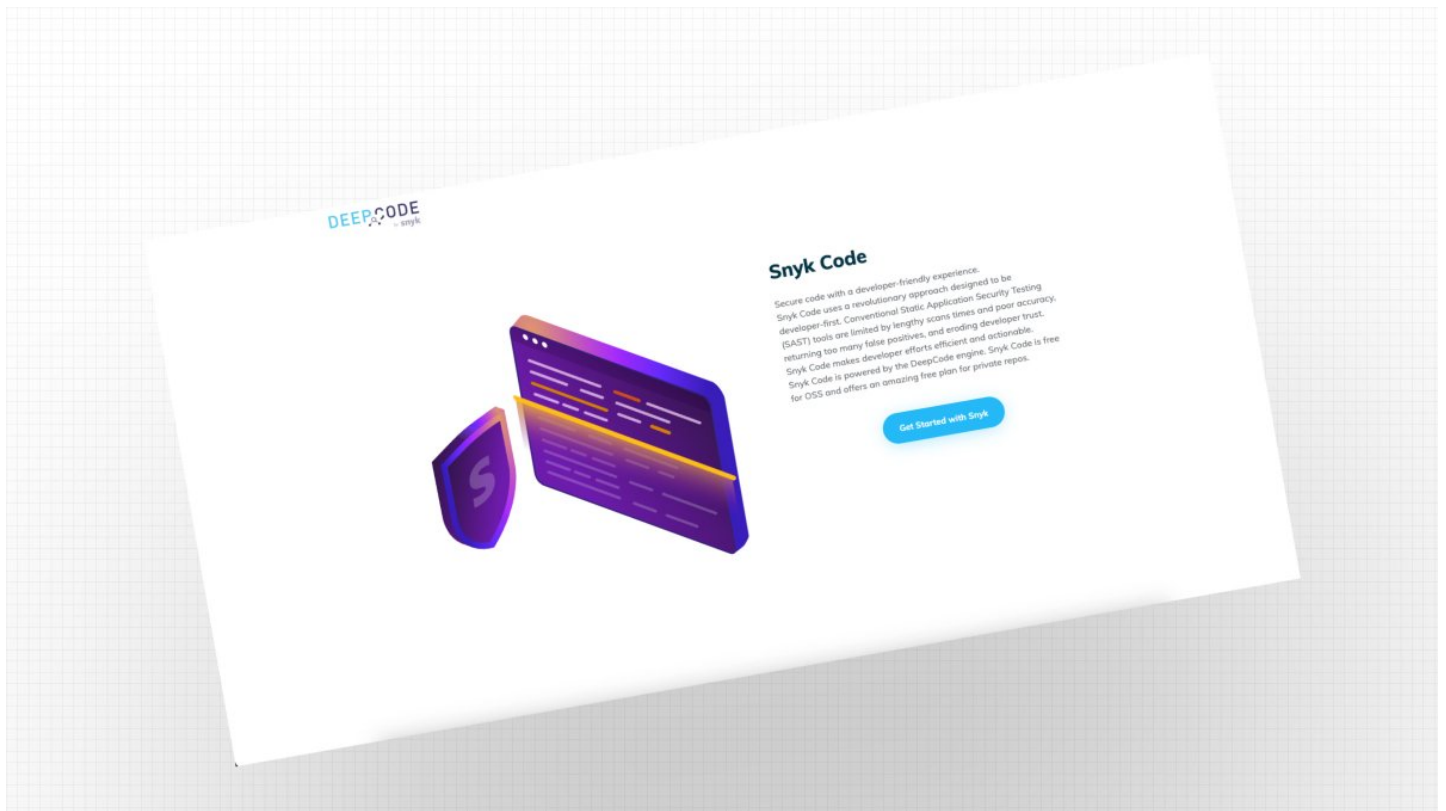

`=IF(LEFT(A15)+"holic".FORM/MD(SUBSTITUTE(A1,"#REF!","JEN(A1)),(3-1)*LEN(A1)+LEN(A1)),0)`

Copy Issue Report Issue

2. DeepCode

DeepCode's AI-based code review notifies you about critical bugs in real time and shows you how to fix them.

■ <https://t.co/dPTPq9syoy>

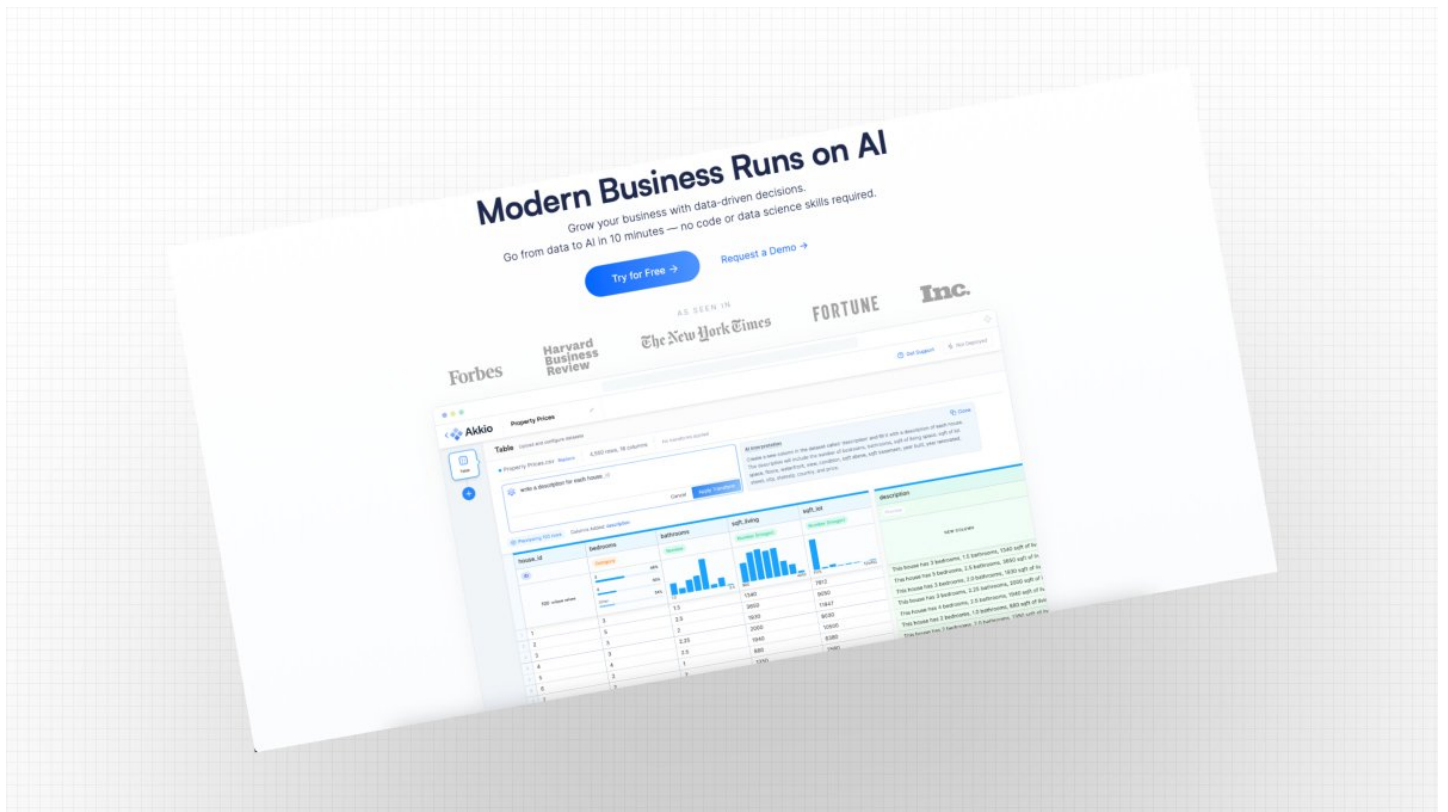

3. Akkio

Grow your business with data-driven decisions.

Go from data to AI in 10 minutes — no code or data science skills required.

■ <https://t.co/l29FIHDIs0>

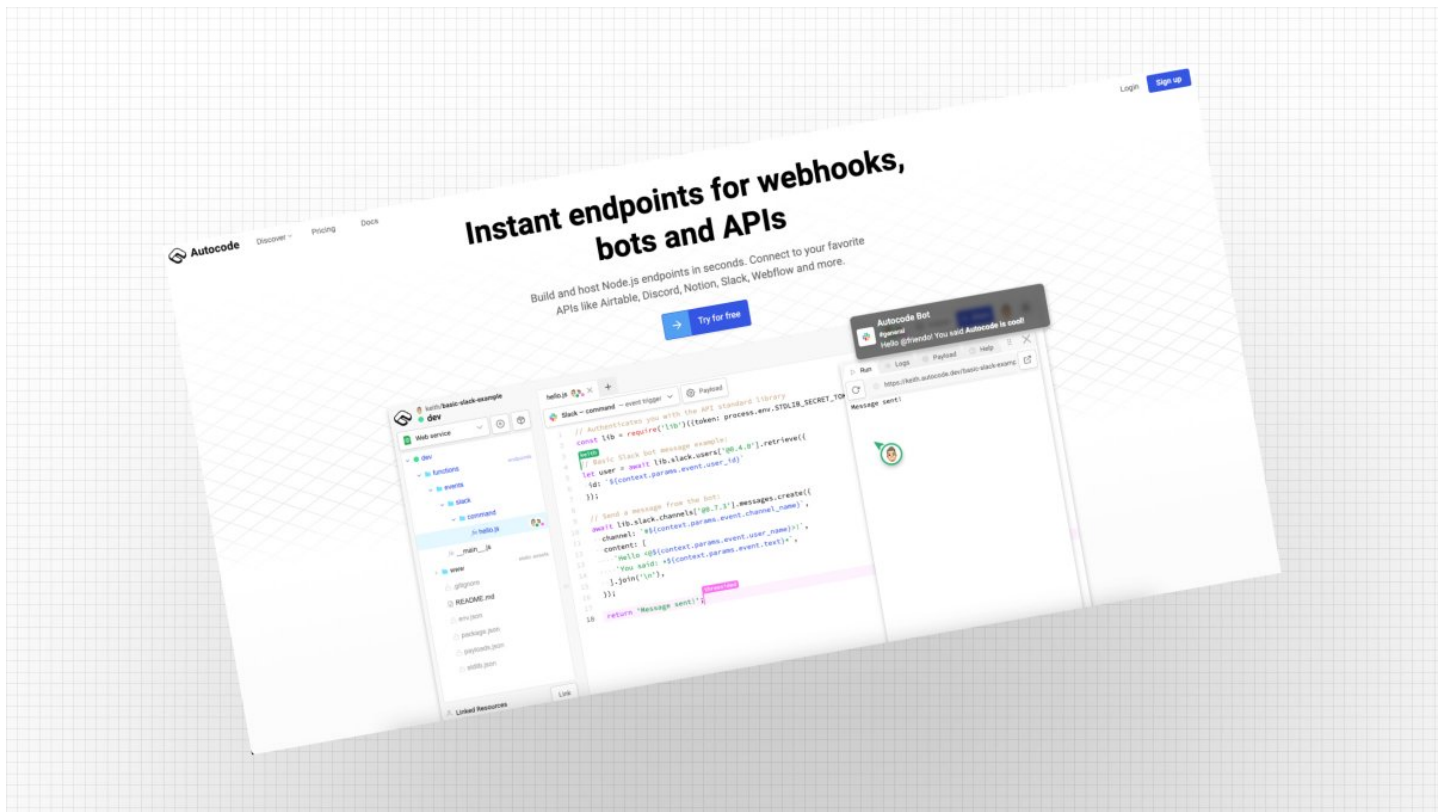

4. Autocode

Instant endpoints for webhooks, bots, and APIs.

Build and host Node.js endpoints in seconds.

Connect to your favorite APIs like Airtable, Discord, Notion, Slack, Webflow, and more.

■ <https://t.co/uQZB0NCHJT>

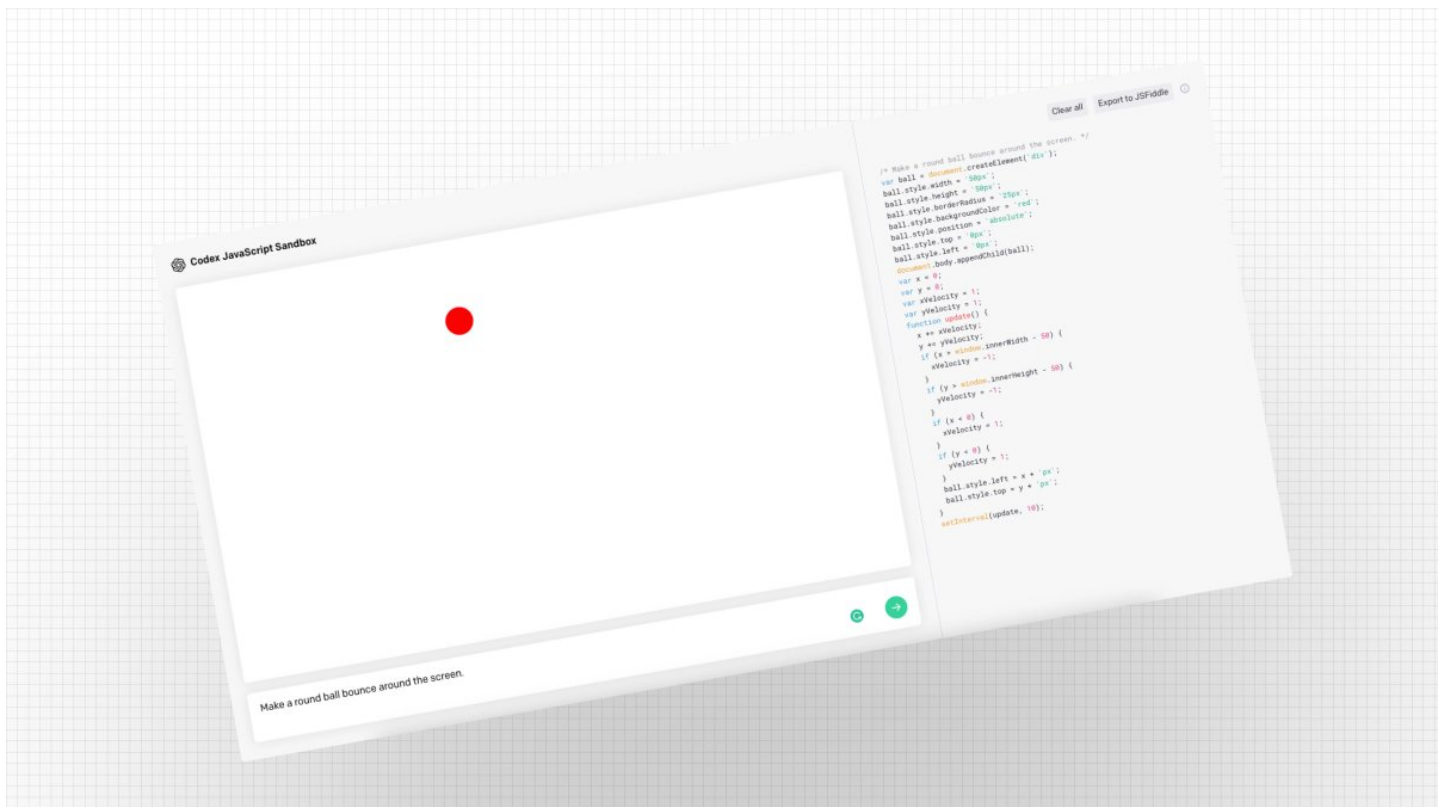

5. OpenAI Codex

AI system that translates natural language to code.

For example, "make a red ball bounce around the screen"

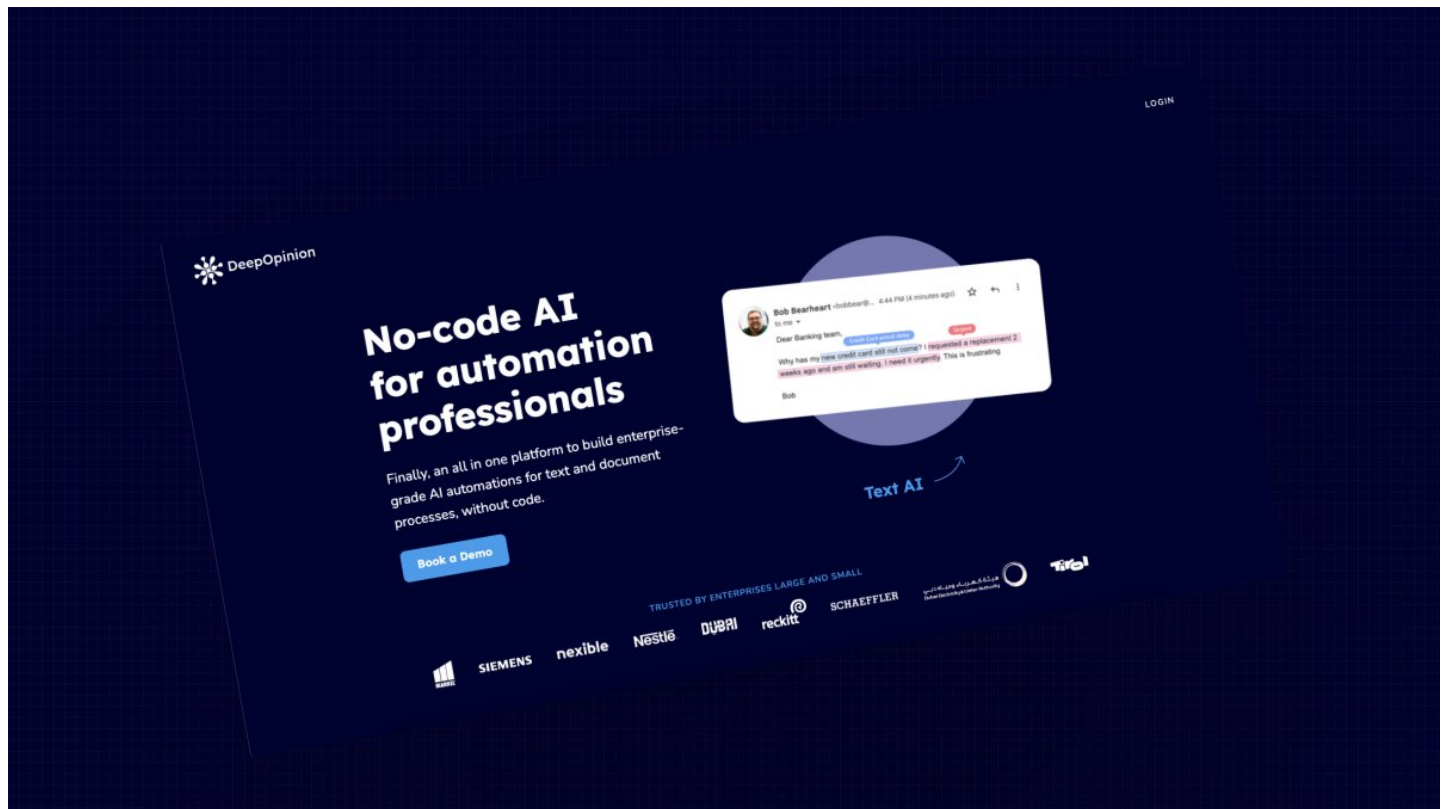

■ <https://t.co/RzJkruQBv2>

6. DeepOpinion

All in one platform to build enterprise-grade AI automation for text and document processes, without code.

■ <https://t.co/RzLCMCZZ26>

The image shows a dark-themed landing page for DeepOpinion. In the top right corner, there is a "LOGIN" link. The DeepOpinion logo is in the top left. The main headline reads "No-code AI for automation professionals". Below this, a sub-headline states: "Finally, an all in one platform to build enterprise-grade AI automations for text and document processes, without code." A blue button labeled "Book a Demo" is positioned below the sub-headline. To the right, a screenshot of a text message from "Bob Bearheart" is shown, with a blue box containing the text "Text AI" and an arrow pointing to the message content. At the bottom, a row of logos for various companies is displayed, including Siemens, Nexible, Nestlé, Dubai, Reckitt, and Schaeffler, under the heading "TRUSTED BY ENTERPRISES LARGE AND SMALL".

That's all for this thread! Check out more excellent content at [@Prathkum](#).
