I define purpose as the objective that drives your life. The one thing you know you are meant to do with your life. Having a purpose is a blessing as each day you work with a determined focus as your end goal is very clear & concise.

The talk of purpose can be a scary one as many young men don't know their purpose, they don't have a clear map, they can't focus. As a result are all over doing everything but working hard on their purpose.

How do I find my purpose? How do I know what I want & what I'm good at? This isn't complicated... To find what you enjoy & what you're good at, YOU MUST TRY MANY THINGS. Now this is a very simple, non complex solution yet is very hard to execute. But don't worry gents...

Trying everything just to find your purpose would leave you never getting anywhere in life cause there are just so many new things to try & so little time. This is why you should have a MISSION. Your mission is a set of clear objectives that are much easier to quantify

Unlike things like long term fulfillment, satisfaction & life's purpose, a Man's mission is clear, cut & can be objectively measured. What should your mission be as a man? Get ALL your 5M's AS HIGH AS POSSIBLE. Nothing will help you find direction in life more than this.

Now, what are these 5M's? Easy:

- 1. Money & Affluence
- 2. Mind & Awareness
- 3. Mileu & Social Hierarchy
- 4. Muscle & Apperance
- 5. Masculinity & Dominance

I'll break each down to map out how you should be spending time, effort & attention to honing & refining these pillars.

1. Money & Affluence

This is all about your financial factors. How do you make your money? How many streams of income do you have? Is your money directionally proportional to the time you work? As a man, you shouldn't have just one stream of income. Diversify & invest

We all won't be billionaires , but we ALL can go online or learn skills that can make you extra money. Graphic design, social media programs, books, consulting, investing, trading. Build up your wealth, get financially stable & focus on growing before spending in your 20's

Do this right & by 28 - 35 you will have the best time of your life, by securing this M, you now have funding & capital to enhance the quality of life, women, style, cars & property. The world will bow in your presence once you have your money. Invest, save & focus on longevity
