The easiest way to make a woman come back to you is to hold the door wide open for her when she wants to leave

Go no contact

Don't call

Don't text

Don't hit her up with any new years, happy valentines, merry Christmas, etc

She will roll right back into your life or you can easily bring her back into it months later if you so wish

The art of the boomerang

All of this will not happen with a certainty if you follow the Cardinals: https://t.co/SFJgeAjeAx
