Lyric thread ■

1/

**'It was written, access to knowledge is forbidden
Doing bidding of the fallen angels to keep it hidden
Take a look around you, breathe in the world we live in
It's a matrix by design not the world we were given'**

Continued below...

2/

'They don't wanna kill us yet, they wanna put us all in prison
Of the mind, to make you blind, and distort your vision
Brainwashed, dumbed down, victims of the system
Wake up, third eye, open to this wisdom'

Continued below...

3/

'Our forefathers right now are rolling in their graves
They gave everything they had for the home of the brave
Crimes against humanity, mentally we're all slaves
You look to them for guidance when they're the ones who made the maze?'

Continued below...

4/

'Viruses, huh? They're the ones that made the AIDS

Coronahoax killing people trying to make a wage
Now or never, it's time for Severe to take the stage
Mentally you've been in prison, now it's time to break the cage'

Continued below...

5/

'What's the point of jumping in if you ain't gonna make a wave?
The writing's on the wall since they displayed it in a cave
In Tutankhamun's tomb, it was emblazoned and engraved
The blood of my ancestors flowing raging in my veins'

Continued below...

6/

'Witchdoctors on the beach do a dance to make it rain
I grab the mic and make lightning strike when I create a flame
Stomp the ground, and break it down I devastate the game
You can see the agents clearly when you elevate the brain'

Continued below...

7/

'Bring the dead back to life, this is resurrection rap
Cuz the mind is one thing you ain't protecting with a gat
Give the country back its rights, with the insurrection act
We need to attack the site where the infections at'

Continued below...

8/

'The MSM is complicit, knowingly deflecting facts
Every attack they launch needs to be deflected back
I've got the full Armor of God, nope they ain't affecting that
Mind control is the method time to take the weapon back'

Continued below...

Gonna hold off on posting the rest....

Gotta keep some ■■■■ on reserve until I release this ■■
