'How To Get More Followers & Engagement Using Hashtags Without Being Spammy' ■

A lot of you have been asking how I was able to grow so fast over the last month so I thought I'd share with you how to grow using Hashtags!

This is a long one so keep reading...

1/7

So I've been getting asked a lot..

"i was wondering if you have any tips on growing a small twitter account"

or

"you got like 100 followers in 2 day. HOW?"

This made me want to start sharing different tips with you so you can grow your own profile at ease!

2/7

To keep things short, here's how to select your 'Top 5' hashtags that you should be including in your posts so you can grow your profile.

Just remember, this is all new to me and I could be completely wrong..

Do not hold me accountable if this doesn't work for you

3/7

Step 1: Search a main keyword on Twitter (i.e. #ROBLOX)

Step 2: Navigate to the 'Top' filter after you search

Step 3: Start scrolling and identifying 15-25 posts that are similar to what you want to build and have high engagement (i.e. likes, comments, etc.)

4/7

Step 4: List all hashtags from the posts you identified and a number next to them that will tell you how many times you see that hashtag (i.e. #RobloxDev 12)

5/7

Step 5: Now that you have a list of hashtags with a number of how many times that hashtag was used, organize them by popularity (least used --> most used)

Step 6: Circle and choose your 'Top 5' hashtags

6/7

Step 7: Write down your 'Top 5' somewhere and refer back to it later when making posts

If you found what I shared valuable, let me know in the comments below so I can do more like it!

Your friend,

Vib ■
