@SubhadipNandy16

**Two year back thread on MFI, someone liked this so came up in notifications .
Rather than running around 100s of indicators, I have made this my go to indicator
under any circumstances and have been using this for years**

What do you think/use as the most robust leading indicator if following technical analysis ? Please answer with
reason , I will provide my answer after 2 hours

(At Delhi airport , bored as hell)

This thread actually had some great answers , one can learn a lot about the thought processes of different traders from the
answers. Please go thru them
