#Nifty -- Going good so far forming triangle as expected.

Till it breakouts expect pendulum swings within this structure.

I am positive for 19300-20000 above 18350.

Bottoms 16800-17000 in place and 200dema at 16600. Dont see any big cut. @moneyworks4u_fa https://t.co/lceGFlDyRM

#Nifty taking a shape of triangle rather than CNH.
