#Nifty -- Going good so far forming triangle as expected.

Till it breakouts expect pendulum swings within this structure.

I am positive for 19300-20000 above 18350.

Bottoms 16800-17000 in place and 200dema at 16600. Dont see any big cut.

#Nifty taking a shape of triangle rather than CNH.

Confirmation point is same 18350 and targets also same as below \U0001f447

Traingle /CNH whats in a name as long as targets and Confirmation point is same. <https://t.co/vfM1odTd94>
