1. Management
2. How to initiate
3. When to exit straddles
4. Examples
5. Videos on Straddles

Share if you find this knowledgeable for the benefit of others.

1. Straddles explanation from the boss himself.

<https://t.co/RRhQKmrE7P>

How to sell option?

Here let me explain through simple math.

Say BN at 30000

30000 straddle trading at combine premium 800 (based on current volatility)

Put at 400

Call at 400

You don't know direction. Sold both.

If move will not come than both will decrease gradually.
