

## Twitter Thread by Kristofer Goldsmith

**Kristofer Goldsmith**

@KrisGoldsmith85

**Took leave from work to take care of myself (as much as I could, all considered) this week for the first time in as long as I can remember. To see everything I've worked on for years — fighting disinfo and the radicalization of veterans — with death of vets in the Capitol... 1/x**

It's been crippling. It's all that I can think about. And I'm angry. Angry at those who didn't listen — particularly those on the Hill who I've been warning for years. Angry at those who avoided responsibility, could have been proactive, and refused to seek solutions. 2/x

After a two-year investigation on behalf of @VVAmerica, I wrote and published a report on the way veterans were being targeted online. My mandate at the time was to focus on foreign entities seeking to take advantage of, defraud, and radicalize troops, vets, and our families. 3/x

I discovered during my investigation that Macedonians stole "Vets for Trump" FB pages, and were using them to spread hateful, racist, and xenophobic rhetoric **\*\*MORE EFFECTIVELY THAN THE ORIGINAL OWNERS.\*\*** 4/x  
<https://t.co/ufFe6xJB87>

As @craigtimberg explained: The saga of Vets for Trump is a case study in how misinfo +political activism can become intertwined, and how the line between domestic and foreign actors can blur in an online world where social media accounts can be bought, sold and even hijacked 5/x

A year prior, @CraigSilverman + team from @BuzzFeed had written about \*these same Macedonians,\* who stole and ran Vets for Trump, had created an entire publishing industry to prey on Trump followers and feed them crazy conspiracy theories 6/x <https://t.co/GE5gACxJeo>

The BuzzFeed article ends with how the Macedonians wrote an email to to @tedcruz's office about how Facebook had begun to block their phony pages. Coincidentally, Cruz really leaned into the "conservatives are being targeted by social media" messaging around the same time. 7/x

**“I’m the owner of USA Politics Today,”  
the email began. “The conservative  
media is under Facebook attack, we  
are looking for support and help to  
spread this news everywhere.”**

Flash back forward to 2018 and the WaPo article — Craig reveals how Trump-supporting veterans, including one who ran for congress in Texas, had been working with these Macedonians to spread their propaganda, knowingly, for years, motivated in large part by the money. 8/x

In my report, I included dozens of posts made by the Macedonians, who were pretending to be Vets for Trump, posting attacks against and disinfo about 2020 democratic candidates, including, of course, [@JoeBiden](#) and [@KamalaHarris](#). 9/x

I included only one piece of content in my report that was posted by the Americans while they controlled the Vets for Trump page. This, featuring [@RashidaTlaib](#), [@AOC](#), [@IlhanMN](#), and [@AyannaPressley](#). Remarkable for a few reasons, not just the obvious insertions in background. 10/x

Vets for Trump

January 26 · 🌐

Guess who's sitting with a picture of Osama Bin Laden and an ISIS flag!?  
Yep, the new Congress woman and leftist media darling Rashida Tlaib

This post was made in January on the Facebook page Vets for Trump, while American administrators had control of the page. (Screenshot)

The fact-checking sites [Snopes](#) identified a meme posted in September 2017 by Vets for Trump as “false” for depicting a black

Remarkable part 1: The original poster of the meme (I'm not sure if it was foreign or domestic in origin) didn't just insert an ISIS flag, Osama, and Impeach sign. They also played on racist tropes, darkened @IlhanMN's eyes and teeth. 11/x

The original source also sharpened @AOC's facial features to make her look menacing, evil. (High res version is available in my report at <https://t.co/hcXA6ln9iX>) 12/x

Remarkable part 2: the reactions in the comments. So, so many people who followed the Vets for Trump Facebook page believed this image to be authentic. Hundreds truly believed that Democratic lawmakers are members of ISIS. I'm not being hyperbolic. They truly believe this. 13/x

The post is still up, by the way. I've personally reported it several times. For racism. For xenophobia. For presenting falsified info. For hate speech.

FB at some point labeled it with a "false information" tag. But the damage has been done. 14/x

These are the comments in the order that they appear on my screen when I visit on mobile (may not be the same for you, or on desktop). It takes 3-screens worth of scrolling to reach a skeptical commenter. Others sincerely believe that Americans voted in real ISIS terrorists. 15/x
